Private Sewage Facility

On-site sewage facility performance cannot be guaranteed even though all provisions of the Rules of Johnson County, Texas for Private Sewage Facilities are complied with.

Inspections and or acceptance of a private sewage facility by the Public Works Department shall indicate only that the facility meets minimum requirements and does not relieve the owner of the property from complying with County, State and Federal regulations. Private Sewage Facilities, although approved as meeting minimum standards, must be upgraded by the owner at the owner's expense if normal operation of the facility results in objectionable odors, if unsanitary conditions are created, or if the facility when used does not comply with governmental regulations.

A properly designed and constructed private sewage facility system, installed in suitable soil, can malfunction if the amount of water that is required to dispose of is not controlled. It will be the responsibility of the lot owner to maintain and operate the private sewage facility in a satisfactory manner.

Flood Statement:

According to the Flood Insurance Rate Map for Johnson County, Texas and Incorporated Areas, Community Panel No. 48251C0125J, effective date December 04, 2012, the property is located in zone " X " (Areas determined to be out of the flood plain).

The above referenced FEMA flood insurance rate map is for use in administering the NFIP, it does not necessarily show all areas subject to flooding, particularly from local sources of small size, which could be flooded by severe, concentrated rainfall coupled with inadequate local drainage systems. There may be other streams, creeks, low areas, drainage systems or other surfaces or subsurface conditions existing on or near the subject property which are not studied or addressed as part of the NFIP.

Blocking the flow of water or constructing improvements in the drainage easements, and filling or obstruction of the floodway is prohibited.

The existing creeks or drainage channels traversing along or across this addition will remain as open channels and will be maintained by the individual owners of the lot or lots that are traversed by or adjacent to drainage courses along or across sections.

Johnson County will not be responsible for the maintenance and operations of said drainage ways or for the control of erosion.

Johnson County will not be responsible for any damage, personal injury or loss of life or property occasioned by flooding or flood conditions.

Johnson County has the right but not a duty to enter onto property and clear any obstruction including but not limited to trees, plants, dirt, or buildings, which obstruct the flow of water through drainage easements.

Duties of Developer/Property Owner

The approval and filing of this plat by Johnson County does not relieve the developer of the property or owner of the property of any duty to comply with all local, state or federal law of the jurisdictions in which the property is located.

The approval and filing of this plat by Johnson County does not relieve the developer of the property or owner of the property of any duty to any adjacent or downstream property owner or impose, include or transfer any duty or liability to Johnson County, the Commissioners, officials or employees of Johnson County.

Johnson County makes no representation that the streets, streams, rivers, drainage channels or other drainage structures, devices, or features portrayed hereon are actually existing on the property portrayed by this plat do not violate the statutes or common law of an incorporated city, Johnson County, the State of Texas, or the United States.

Johnson County is relying upon the surveyor whose name is affixed hereon to make accurate and truthful representations upon which Johnson County can make determinations regarding the approval or disapproval of this plat.

Indemnity

The property developer submitting this plat to Johnson County for approval and the owner of the property the subject of this plat do hereby agree to jointly and severally indemnify and hold harmless Johnson County and the Commissioners, officials, and employees of Johnson County from any and all claims or damages resulting from or allegedly arising from Johnson County's approval or filing of this plat or construction documents associated therewith.

Utility Easement:

Any public utility, including Johnson County, shall have the right to move and keep moved all or part of any buildings, fences, trees, shrubs, other growths, or improvements which in any way endanger or interfere with the construction or maintenance, or efficacy of its respective systems in any of the easements shown on the plat, and any public utility including Johnson County, shall have the right at all times of ingress and egress to and from said easements for the purpose of construction, reconstruction, inspection, patrolling, maintaining and adding to or removing all or part of its respective systems without the necessity at any time of procuring the permission of anyone.

Filing a plat:

It is a Criminal Offense punishable by a fine of up to $1000.00, confinement in the county jail for up to 60 days or by both fine and confinement for a person who subdivides real property to sale the subdivision's description in a deed of conveyance, a contract for a deed, or a contract of sale or other executory contract to convey that is delivered to a purchaser unless the plat or replat of the subdivision is approved and is filed for records with the Johnson County Clerk. However, said description may be used if the conveyance is expressly contingent on approval and recording of the final plat and the purchaser is not given use or occupancy of the real property conveyed before the recording of the plat.

A purchaser may not use or occupy property described in a plat or replat of a subdivision until such time as the plat is filed for record with the county clerk's office of the Johnson County Clerk.

NOTES:
