A. MONTHLY WINTER RATES FOR RV SITES December 1 – February 28:

SEPTIC & ELECTRIC SITES	\$400.00 per month
FULL HOOKUP SITES	\$450.00 per month

UPDATES:

2-Way Radios –More efficient communication for emergency situations -- Purchasing Department checking.

Information from Corp of Engineers as of 10/28/2009:

Before volunteers work on horse/hike/bike trails again, need liability waiver signed. Although trails are on Corp of Engineers property, they are accessed through Hamm Creek Park.

Trails will be completed by volunteers. Trails will not be open to public until completed.

Once trails are finished, the Corp of Engineers is responsible to GPS and mark trails as to difficulty and also to post signage.

Since the water level is up, construction of the new boat ramp has been postponed until the end of next summer.

The Corp has layout of private Heliport/Pad with lighting. Parking area will be by first pavilion.

Two (2) playground areas have been drawn up – one will be located in the Day Use area and the other will be between the pavilions.

Water well – preparing to start. (Note! Park Supervisor has water certification --have checked TEEX training locations/dates for renewal course and to certify another park employee).

Road will be asphalted from FM916 to Park entrance.
