CE800 Elliptical Trainer

CE800 Elliptical Trainer

The **CE800** was specifically engineered for the commercial environment, from its heavy duty steel frame to its durable powder coat paint finish. The design focuses on convenience, comfort, reliability, and aesthetic appeal.

Other design elements include:

- A smooth, quiet 20" stride, which is the optimal distance for the average user
- Dual rollers on each pedal arm for a sturdier base; the rollers are shielded for safety
- Generator powered console means there is no need for electricity
- 2° of inversion at each foot pedal places the user in an anatomically correct position
- 30 lb. flywheel combined with the weight of each pedal arm produces the ideal amount of inertia
- 40 levels of resistance to satisfy the needs of beginners or advanced exercisers

This model is very appealing to users that value a smooth stride and a weight bearing workout, without the impact. The console is identical to the **CR800** & **CU800** bikes, which makes programming very familiar when using any of the Spirit Fitness C series products.

CE800 w/
V-Brocket
console

CE800 Elliptical Trainer

Large Blue-LED Matrix Window

20-Character Message Center

Convenient cargo compartment for keys, phone, or MP3 player

Fan to keep you cool

Ten innovative programs offer a variety of work-outs

Heart Rate % Profile

Easy-Touch Control Buttons

As with any product, a major importance is the user interface. We focused on making everything easily accessible and comfortable: A storage tray for a phone, keys, or an MP3 player, ergonomically friendly pulse grip handles for a more natural hand position, and a Turbo cooling fan to keep your clients cool and encourage them to workout longer.

A quick press of a button and your clients are off on a walk, a run, or one of the many specialized workouts such as the Fit Test or Constant Power programs. Our large, easy-to-read console gives your clients constant feedback from calories to distance to time.

Equipment Specifications

CONSOLE	Large Blue-LED Matrix w/ 4 Separate LED Info Windows, a 20-Character LED Message Center, LED Heart Rate Bar, & an Integrated Reading Rack

CR800 Fitness Bike

CR800 Fitness Bike

The **CR800** Commercial Semi-Recumbent Bike is the perfect bike for the commercial environment. The step-thru design makes it easy for your clients to get on the bike, and the easy-adjust seat allows them to find the most comfortable position. The console offers multiple programs, most with 40 levels of resistance and enough feedback information to make sure your clients never grow bored of the **CR800**. The extra-smooth ride comes from the perfect gearing and the integrated generator/flywheel system.

Other design elements include:

- Contact & Telemetric heart rate capabilities to make the workout more effective
- Generator powered console means there is no need for electricity
- 2° of inversion at the padded foot pedals places the user in a comfortable, anatomically correct position
- High density foam pads for extra comfort during a long ride
- 30 lb. flywheel combined with the weight of each crank arm produces the ideal amount of inertia
- 40 levels of resistance to satisfy the needs of beginners or advanced exercisers

This model is very appealing to users that value a smooth ride and extensive data feedback. The console is identical to the **CUB00** fitness bike & **CEB00** elliptical trainer; which makes programming very familiar when using any Spirit Fitness C series products.

CR800 Fitness Bike

As with any product, a major importance is the user interface. We focused on making everything easily accessible, convenient, and comfortable: A storage tray for a phone, keys, or an MP3 player; ergonomically friendly pulse grip posts for a more natural hand position, and a Turbo cooling fan to keep your clients cool and encourage them to workout longer.

A quick press of a button and your clients are off on a manually controlled ride or one of the many specialized workouts such as the Fit Test or Constant Power programs. Our large, bright LED console gives your clients constant feedback from calories to distance to time.

Equipment Specifications

CONSOLE	Large Blue-LED Matrix w/ 4 Separate LED Info Windows, a 20-Character LED Message Center, LED Heart Rate Bar, & an Integrated Reading Rack

CT800 Treadmill

CT800 Treadmill

The **CT800** is stout and extremely durable, weighing in at over 350 lbs. The combination of the heavy duty steel frame and aluminum console masts & side rails make it comparable to treadmills at much higher price points in the commercial market. The large workout area makes this model very appealing to walkers and runners.

Other design elements include:

- A bright, Tri-color LED console whose programming is very similar to our other C series consoles
- Quick Speed and Incline keys to save time and make your clients workouts more efficient
- Contact and wireless heart rate options to help keep clients in their safe & effective zone
- Dual drive motor cooling fans to protect and extend the life of the motor and control board
- Low maintenance, hard wax deck system provides hassle free use for thousands of miles
- A spacious 22" x 60" workout area to accommodate tall individuals
- A Habasit® Commercial Belt to lessen the impact of the foot strikes

The **CT800** features convenient adjustments and monitoring, critical feedback such as actual Heart Rate and % of projected max, and creative programs including a Fit Test utilizing the Gerkin Protocol. All of these attributes make it a great addition to any commercial environment.

CT800 Treadmill

As with any product, a major importance is the user interface. We focused on making everything easily accessible and comfortable: dual storage trays for beverages, keys, or MP3 players, ergonomically friendly pulse grip posts for a more natural hand position, and a Turbo cooling fan to keep your clients cool and encourage them to workout longer.

A quick press of a button and your clients are off on a walk, a run, or one of the many specialized workouts. Our large, easy-to-read console gives them constant feedback from calories to distance to time.
