Van for Custodial Use

Purchasing has been checking on vehicles for Public Works including a used van for Custodial use. They were able to locate a new 2013 van off the state contract. This is a two seat cargo van with an EPA-est MPG of City/Hwy 21/27. A new van would have warranty, be reliable, low maintenance and should be a good serviceable vehicle for a number of years. The two seats would allow up to two custodians when needed for a job plus plenty of enclosed cargo area to take vacuum cleaners, carpet cleaners and cases of supplies as needed in all types of weather.

Because of the low maintenance truck prices, we will be able to more than cover the price difference between a new and used van. Used trucks and vans are not under state or other contracts. If a used van is the best option then we will need to go out for bid.
