POLICY CONCERNING AIDS AND AIDS RELATED CONDITIONS IN THE WORK PLACE

GENERAL

The overwhelming weight of current medical research and scientific opinion, including statements from the U.S. Public Health Service, Centers for Disease Control and the U.S. Surgeon General, is that there is no risk the AIDS virus can be transmitted by casual contact in the normal workplace.

The Department of Health and Human Services recognizes AIDS as a medical disability or handicap, according to Section 504 of the Rehabilitation Act of 1973, as amended, and prohibits discrimination based on AIDS.

POLICY

Subject to changes in the available medical information, it is the policy of the Wichita County Juvenile Justice Center that employees with AIDS will be treated no differently than employees with other life-threatening illnesses. Such employees will be allowed to continue to work and will be provided with reasonable accommodations as long as they are medically able to perform their assigned duties and do not pose a danger to their own health and safety or the health and safety of others.

Further, it is the policy and intent of the Wichita County Juvenile Justice Center that there be no discrimination in any employment practices or other items, privileges and conditions of employment with this agency regarding employees with AIDS or AIDS-related conditions.

Employees with AIDS or AIDS-related conditions will be treated the same as any other employee with medical disabilities or handicaps. Such employees are entitled to the same benefits and are subject to the same regulations and restrictions.

QUESTIONS

Specific questions regarding program or employee responsibilities when an employee has AIDS or AIDS-related conditions should be directed to the employee's supervisor.

CONFIDENTIALITY

Medical information and certain other matters regarding employees are considered confidential. Due to the sensitivity currently surrounding AIDS, any correspondence regarding the medical condition of an employee with AIDS or AIDS-related conditions, such as requests for extended sick leave, leave without pay, and leaves of absence, should be handled with the utmost confidentiality and discretion. Items should be hand-carried between addresses or sent in sealed envelopes marked "PERSONAL AND CONFIDENTIAL."

EDUCATION

An AIDS awareness brochure will be provided to each new employee. Employees desiring additional information regarding AIDS may contact the Wichita County Health Department.

DISCRIMINATION

Any employee who believes he or she has been discriminated against because of AIDS or AIDS-related conditions may contact his or her supervisor. In the event that the supervisor is the person who is perceived as being discriminatory, the department has a grievance policy that allows for another person to be contacted.

POLICY CONCERNING AIDS WORKPLACE GUIDELINES FOR RESIDENTIAL SITUATIONS

AIDS TESTING

A juvenile may be tested if he or she asks to be tested. A juvenile who asks to be tested should be referred to a doctor or local health official where they will be provided counseling and testing in accordance with State Law.

A juvenile may be required to be tested for AIDS if ordered by the Court because there is probable cause to believe that the juvenile has AIDS and that knowledge of this is vital to the care provided the juvenile in the Juvenile Justice System.

CONFIDENTIALITY

A test result is confidential. The person tested has a right to the test results and may voluntarily authorize the release or disclose the test results.

A physician, nurse, or other health care personnel who have a legitimate need to know the test results in order to provide for the protection of the juvenile and the juvenile's health and welfare may have access to the test results.

The Court that orders a juvenile to be tested for AIDS has a right to the test results.

EMPLOYEE EXPOSURE

An employee of the Juvenile Justice Center who thinks he or she has been exposed on the job to AIDS and who can articulate a specific reason, may force the testing of the person he or she believes exposed him or her to the virus.

The Texas Department of Health guidelines will be followed in obtaining a test and the employee applying for worker's compensation benefits.
