## Tarrant Regional Transportation Coalition

# Presented

- Background:** The **Tarrant Regional Transportation Coalition (TRTC)** is a non-profit membership organization founded in 2004 to advocate for solutions to the growing mobility crisis in the western half of the North Texas metro area.
- Vision:** A North Texas Region where people and goods move safely and efficiently.
- Mission:** Conduct effective public education and legislative advocacy that will result in statewide policy decisions and funding that support increased mobility, air quality, economic development and quality of life in North Texas region.
- Objectives:** Inform citizens, businesses and elected officials of the benefits of investing in transportation, the costs of not doing so and the importance of predictable, sustainable revenue dedicated to fund transportation investments, to motivate key stakeholders to contact their legislators and demand solutions and funding to maintain the system and sustain mobility.

TOTAL: \$4,676

After allocation of Prop 1, Prop 7 and all other state and federal transportation funding to the TxDOT Fort Worth District over the next ten years, we still have nearly \$5 billion in priority projects unfunded. Unless the Legislature chooses to increase annual statewide transportation funding by more than \$5 billion, tolling, managed lanes and CDAs remain essential tools to sustain mobility in North Texas.
