

**STATEMENT OF
CONCURRENCE**

9/10/2020

To Whom It May Concern:

The County of Hill, TX is proposing to utilize frequency 158.970 MHz, which is co-channel to frequency 158.970 MHz licensed by your agency under call sign WPWW371 for locations 4 and 6.

FCC rule 90.173(a) & (b), and FCC rule 90.175(a) & (b) provide for shared use of the frequency spectrum, and the procedures to be followed for assignment of frequencies. Either the FCC rules require, or a decision by the FCC Certified Frequency Coordinator may request a letter of concurrence (LOC) to insure that all affected licensees are aware of the frequency recommendation by the Frequency Coordinator and the proposed operations of the applicant.

Should any interference problems arise as a result of the assignment, the licensees must cooperate in the resolution of the issue according to FCC rule 90.173(b), taking into consideration that the frequency spectrum is shared. If the interference cannot be resolved in a timely manner, it would be the responsibility of *Hill County Texas* to cease operations immediately. It would also be the responsibility of *Hill County Texas* to change frequencies, if the interference cannot be resolved.

The *County of Hill, Texas* respectfully requests your concurrence for this radio station application. Please indicate your response below and either fax or scan and e-mail it to my attention at *themrick@co.hill.tx.us*. Our application is pending your response with the FCC Certified Frequency Coordinator at this time. Your immediate attention to this matter would be greatly appreciated.

If you have any questions, please contact me at

254-266-0006. Sincerely,

Tom Hemrick Hill County Emergency Manager

Hill County Texas
