---------	--

Total	\$3,400	Plus COLA
-------	---------	-----------

New Personnel Requests:

2 Patrol Deputies	\$50387 + Fringe (\$71,707)	Plus COLA	TBD	County growth contributing to additional calls for service, longer response times, less proactive time and less time spent on calls in order to get to next one. This is also affected by Tier 2, current anti law enforcement atmosphere requiring additional personnel to respond and the need for a full time deputy to provide background and recruiting efforts.
-------------------	--------------------------------	-----------	-----	---

Total	\$143,414	Plus COLA
-------	-----------	-----------

O/T Adjustment	\$78,700	\$17,500	\$96,200	Addition of 19 personnel (assigned to Jail) increases current Peace Officer staffing by 22%. The \$17,500 is a corresponding increase in O/T funds.
----------------	----------	----------	----------	---

Total		\$17,500	Additional	
-------	--	----------	------------	--

Uniform Allotment:	\$600	\$600 x 110	New \$1200	Rising costs in uniforms. Deputies are responsible for purchasing shirts (long and short sleeve), pants, boots, jackets, winter coats, class A felt hats and other miscellaneous items to perform their job. Uniform allowance has remained the same for at least 20 years while the costs of products have risen significantly, in many cases doubling or tripling.
--------------------	-------	-------------	------------	--

Total		\$66,000	additional	
-------	--	----------	------------	--

FTO Pay	\$100 per month	x 10 Deputies x 4 Dispatchers	Total	\$16,800	Recognizes additional work performed by Field Training Officers for training new recruits. This amount is for FTO's on Patrol and Communications.
---------	-----------------	----------------------------------	-------	----------	---

Vests	\$990.25 each	x50	Total	\$49,512.50	Needed by Deputies while performing duties. 19 of these are for new positions in the jail.
-------	---------------	-----	-------	-------------	--

**Subject:** What do you think?

I would ask the court to change the position number F02-010, held by Jeanne Bauer, from a Clerk II Position to a Clerk III position and increasing the pay by \$172.00. This position does the same type of work as F03-039 and would only be an increase of \$172.00. While I understand that would not be much of an increase it will allow for us to equal out two positions that are doing the same type job. This discrepancy has only come to light over the last few months and this is our chance to fix this issue.

F02-010 compiles cases for misdemeanor cases, assists with open records, pulls NICE recordings/WatchGuard Videos, Pulls LEADERS and CRIS reports, Name Candidating, among many other tasks assigned

F03-039 compiles cases for felony cases, assists with open records, pulls NICE recordings/WatchGuard Videos, compiles Grand Jury Case reports, NIBRS Submissions, among many other tasks assigned.

## Sex Offender Registration Duties

The un-incorporated portion of Johnson County currently has 600 sex offenders living in the county. This does not include sex offenders living inside a city limits.

It is the responsibility of the Sheriff's Office to make sure these sex offenders are in compliance and stay in compliance.

Texas Department of Public Safety maintains a statewide sex offender registration database. The database would not get updated with the sex offender's new information and keep the sex offender in compliance without local law enforcement doing their job.

Sex offenders are scene once a month, quarterly or yearly depending on their registration requirements.

### Law enforcement Duties for New Offenders moving into the county and keeping compliance on existing offenders

Update the state database with the following information:

- The person's full name, date of birth, sex, race, height, weight, eye color, hair color, social security number, driver's license number, shoe size, home address or a detailed description of each geographical location at which the person resides or intends to reside, each alias, and any home, work or cellular phone number of the person;
- A recent color photograph or, if possible, an electronic digital image of the person and a complete set of the person's fingerprints. The detective will take a photo if necessary.
- The type of offense the person was convicted of, the age of the victim, the date of conviction, and the punishment received;
- An indication as to whether the person is discharged, paroled, or released on juvenile probation, community supervision, or mandatory supervision;
- An indication of each business, occupational, or professional license, certificate, permit, or other authorization issued by a licensing authority that is held or sought by the person;
- Whether the person is or will be employed, carrying on a vocation, or a student at a particular public or private institution of higher education in this state or another state, and the name and address of that institution;
- The identification of any "online identifier" (social media) established or used by the person;
- The vehicle registration information, including the make, model, vehicle identification number, color, and license plate number, of any vehicle owned by the person, if the person has a reportable conviction or adjudication for an offense under:
  - Review court documents
  - Take DNA Buccal swabs per sex offender registration if necessary
  - Fingerprint collection

These questions are asked by the Detective every time the sex offender is scene and updates need to be added to the TX DPS database whether they changed a job, address, vehicle etc. It is also the responsibility of the sex offender to update the Detective on any changes.

**\*\*\* If an offender is out of compliance a warrant may be obtained for that offender's arrest. \*\*\***

Most cities in Johnson County have adopted an ordinance preventing offenders from residing 1,000 ft. from any place a child is known to frequently be at. This includes schools, churches, parks and daycares to name a few. Because of this ordinance, the sex offenders living in the unincorporated portions of the county have almost doubled in the past 2 years.

ABOUT

# Description

The rugged HammerHead H7A FS Forensic Light Kit contains the full spectrum of wavelengths (from UV to near IR) needed to process a crime scene. 7 narrow wavelength (365nm, 395nm, 450nm, 470nm, 495nm, 525nm, and 850nm) light sources enable the crime scene investigator, medicolegal or lab personnel to look for latent prints, body fluids, trace evidence and other valuable evidence. These handheld LED lights allow the investigator to visualize forensic evidence up to 10 ft (3 m) away. This rechargeable kit comes with (7) 18650 batteries a battery charger, a rugged transport case, and 3 goggles. All lights are built to FoxFury's Xtremium standards so they can be dropped, used in all weather, and even submerged for cleaning and decontamination. All lights are backed by FoxFury's industry leading limited lifetime warranty. Custom kits available, call for quote!

### LeadsOnline

#### System Capabilities

-  **Nationwide search access to pawn/secondhand stores** - You'll be surprised how far your criminals will go. Find your crook in any of the 50 states in less than one second.
-  **Automated NCIC Stolen Item Hits** - Receive automated hits on stolen articles and guns, even when serial numbers and item codes are entered incorrectly.
-  **Saved Search Hit Alerts** - Save your search and put the file away. Receive email and text alerts when transactions in your cases are identified.
-  **eBay First Responder Service and OfferUp Search** - Solve cases with direct law enforcement-only access to listing information to identify suspects involved in criminal activity in online marketplaces.
-  **Metal Theft Investigations** - Work metal theft cases with property information, photos, thumbprint scans and digital signatures from scrap metal dealers nationwide.
-  **Phone Forensics Search** - Upload your Cellebrite files and other call detail records to identify other suspects who may be involved in the case.
-  **Automatically Run Lists of POIs** - Upload lists of known offenders and utilize this inter-agency communication system to receive notifications when other investigators encounter them.
-  **Image Search** - Jewelry cases are easier to investigate when searching pictures. You'll also find the rapist wearing the red hat (really – this happened).
-  **CompStat Mapping System** - Easily identify burglary patterns as stolen property is sold. Map activity as suspects travel across jurisdictional lines. Criminals can't hide.
-  **Case Dashboard** - Cases run automatically. Instantly. Repeatedly. Find offenders related to multiple cases. Enhance charges by tracking defendant's criminal activity after initial arrest. Get hits on persons, property and serial numbers added after the initial report.
-  **Automated File Transfer** - Automatically upload case information for all crime types. RMS vendor help is typically not needed.
-  **Notifications and Reports** - Detectives, Analysts, and Patrol Officers receive alerts on their own cases/incidents. Supervisors see all cases, including unassigned, based on offense type and/or unit. Get hits on cases not yet assigned. Reports for investigators, units and command staff create focus and accountability.

## Proposal for Johnson County Sheriff's Office

March 24, 2021

The nationwide comprehensive case solving power of LeadsOnline is built to help address some of the staffing shortages your agency is most likely experiencing today while also helping significantly increasing clearance rates.

### The Problem: More cases. Fewer investigators to work them.

#### **Out of town is out of reach. You know it. The crooks know it.**

Even if you could keep up with all the businesses in your jurisdiction where a suspect might sell something, the bad guy can always sell it in another jurisdiction, leaving you to guess which one.

#### **Majority of crimes get minor attention. 1 in 15.**

Transaction records are the key to solving cases. According to research, less than one in fifteen are checked. Your current process may be too tedious to be the standard procedure.

#### **Overwhelmed and Understaffed?**

Investigators are overloaded, and often do not have the time to run and re-run every case. Even major crime cases can be overlooked as new cases are coming in.

Agencies have open CID positions with additional retirements coming next year. The case load isn't getting any lighter. Cases are set to "Inactive" or "Info Only" due to insufficient resources.

#### **We're on CompStat. How can we be two months behind?**

Transaction information more than two weeks behind is of limited value to a department running on a CompStat-style management process.

Case details on persons and property are often delayed. Relevant transaction information arrives after the initial case and is only searched once. Cases are closed before evidence comes in. Pawnshops only hold incoming property (i.e. your evidence) for a short time, then it's gone. Destroyed by delay.

#### **Accountable, but totally dependent on another agency?**

Investigators call better-equipped agencies for help, but it's just not realistic for every case. Other departments with full caseloads of their own really can't dedicate full attention to yours.

## The "CSI Effect"

Citizens think you have technology, but some tools are from the flip-phone era. When outdated software is hard to use or runs slow, cases go unchecked and unsolved.

## Different Formats and Abbreviations

Other records are from standard agency-owned sources. These transaction records are from different business types with different software types. Different everything. This creates problems.

## Our Mission

- Enforce laws, preserve peace, protect life and property.
- Solve crime and reduce the fear of crime in your jurisdiction.
- Improve the level of service to the community with existing manpower.
- Run all cases, including person crimes, missing persons and trafficking.
- Turn over every stone with unlimited investigators and unlimited searches.

## The Solution: Work smarter not harder. Solve Crimes.

LeadsOnline is a quick, comprehensive way for your investigators to run suspects and property in every case. It saves time and provides access to a suspect's activity, even outside your jurisdiction.

### Coverage Everywhere

- ✓ Each day, more than **400,000 transactions** are reported via LeadsOnline.
- ✓ Find your **homicide suspect** even when he flees to Las Vegas.
- ✓ LeadsOnline receives transaction information from all **50 states**.
- ✓ Law enforcement network includes **4,400+ agencies in 47 states + D.C.**

### Leveraging Technology

- ✓ Search once for persons and property and **save it to continue receiving alerts**.
- ✓ Run **arrest records** and lists of known suspects and stolen property.
- ✓ Identify **crime patterns** among related cases and subjects.
- ✓ Detect activity by **possible associates of persons related to the case**.
- ✓ **Compare images of property and sellers** based on your case information.

### Crime-Solving Innovation

- ✓ Advanced system finds suspects and property even when **misspelled**.
- ✓ Capabilities are **specifically designed for criminal investigations**.
- ✓ Every **two weeks**, enhancements are made to help solve more crimes.
- ✓ Feedback from thousands **of investigators** keeps making it better and better.

### Fast and User Friendly

- ✓ **Fast.** Sub-second search times.
- ✓ Always on. **Available 24/7/365.**
- ✓ Easy to use. **Nothing to install.** Simply log in and catch crooks.
- ✓ **Cross browser compatible.**

### Reporting and Compliance Monitoring

- ✓ **Free for businesses to report** and friendly customer service provided.
- ✓ Transaction Monitor **helps ensure compliance** of businesses in your jurisdiction.
- ✓ See alerts for **missing information and common mistakes.**
- ✓ Businesses have their own dashboard and can **resolve** any reporting issues.

## New! LeadsOnline Real Time Crime System

### LeadsOnline Real Time Crime

The future is now. Let your cases run themselves!

#### Real Time Crime features:

- ✓ **Automatically** upload case information.
- ✓ **Hits are generated** as new transactions are received and crimes occur.
- ✓ **Hits are sent** directly to the investigator or unit responsible for the case.

#### Wait, there's more:

- ✓ Cases are solved **before they're assigned to an investigator.**
- ✓ **Cases are never cold.** They solve themselves even after the file is put away.
- ✓ Honestly tell victims their case is **active and being investigated daily.**

#### Oh, and even more:

- ✓ For **major crimes**, take the investigation in a new and productive direction.
- ✓ **Identify patterns** as cases are automatically linked to one another.
- ✓ **Investigators see the full picture** when suspects commit multiple offenses.
- ✓ **Enhance charges** as offenders continue criminal activity after initial arrest.

## Undeniable Evidence

Analysis confirms that suspects in cases of all kinds are found in LeadsOnline, and the actionable intelligence can link the offender to your case and others.

Persons 54%		Property 52%		Society 58%

## The Power of Networking

Ask your FBINAA forum or other law enforcement leaders. You'll get a positive response.

*"More success in our very first week with LeadsOnline than in all of last year."*

- Washington County Sheriff's Office, Oregon

*"The NCIC hit was positive and the Leads ticket gave us the suspect information. The local police agency had not called us back, so that was a win."*

- Piute County Sheriff's Office, Utah

*"The death was brutal. A LeadsOnline search was done and a ticket was found 2,335 miles away, and west of the incident rather than northeast where the focus had been."*

- Fayetteville Police Department, North Carolina

See many more examples at <https://news.leadsonline.com/>.

No agency has "extra money," but the cost/benefit should make this decision easy. Add every investigator in your agency working cases. Unlimited users. Unlimited searches. Unlimited cases. Unlimited access. Unlimited training. An all-inclusive system designed to work hard for you and your investigators. Please see the included pricing chart for service level capabilities and the annual subscription fee.

Sincerely,

*Ashley Sacrider*

## Notes

BuyBoard 603-20 used for pricing and purchasing justification.

Purchase of TASER 7 are governed by the TASER 7 Agreement located at <https://www.axon.com/legal/sales-terms-and-conditions> and not the Master Services and Purchasing Agreement referenced below.

Tax is subject to change at order processing with valid exemption.

### Axon's Sales Terms and Conditions

This Quote is limited to and conditional upon your acceptance of the provisions set forth herein and Axon's Master Services and Purchasing Agreement (posted at [www.axon.com/legal/sales-terms-and-conditions](http://www.axon.com/legal/sales-terms-and-conditions)) and the Axon Customer Experience Improvement Program Appendix, which includes the sharing of de-identified segments of Agency Content with Axon to develop new products and improve your product experience (posted at [www.axon.com/legal/sales-terms-and-conditions](http://www.axon.com/legal/sales-terms-and-conditions)), as well as the attached Statement of Work (SOW) for Axon Fleet and/or Axon Interview Room purchase, if applicable. The Axon Customer Experience Improvement Program Appendix ONLY applies to Customers in the USA. In the event you and Axon have entered into a prior agreement to govern all future purchases, that agreement shall govern to the extent it contemplates the products and services being purchased and does not conflict with the Axon Customer Experience Improvement Program Appendix. Any purchase order issued in response to this Quote is subject solely to the above referenced terms and conditions. By signing below, you represent that you are lawfully able to enter into contracts. If you are signing on behalf of an entity (including but not limited to the company, municipality, or government agency for whom you work), you represent to Axon that you have legal authority to bind that entity. If you do not have this authority, please do not sign this Quote.
