RE: RFB 2020-206 Culverts for Johnson County
Date: October 12, 2021

Advanced Drainage Systems, Inc., a Texas Manufacturing Employer, is pleased to offer the following quotation on **Polypropylene Pipe**. We thank you for this opportunity and your consideration.

Justification: Market conditions continue to be extremely volatile, and our resin suppliers continue to increase pricing. Our resin suppliers have successfully implemented price increases 10 of the last 12 months. The market dynamics such as exceptional levels of demand outpacing supply, extremely low inventory levels and strong export demand has continued to put upward pressure on resin pricing and availability. Inflationary costs, such as labor and transportation, are playing a greater factor in our cost to serve and these additional costs are at unprecedented levels.
