§

ORDER #2021-103

**SUPPLEMENTAL AND FINAL ORDER ADOPTING REVISED  
POLITICAL BOUNDARIES FOLLOWING REDISTRICTING  
OF COMMISSIONERS COURT PRECINCTS**

**BE IT REMEMBERED**, that the Commissioners Court of Johnson County, Texas previously adopted a plan for the redistricting of Commissioners Court Precincts on November 15, 2021. Attachment 1. As a consequence of the boundary modifications made by that Order, various changes in the underlying election precincts were required to conform election precinct boundaries to the new Commissioners Court Precincts. In addition, the resulting changes to election precincts may have an impact upon the Justice of the Peace Precincts of Johnson County. This Supplemental Order, and the attached maps, data and narrative text, set forth the changes resulting from redistricting of Commissioners Court Precincts, and provides an explanation for the necessity of the same.

**IT IS THEREFORE ORDERED, ADJUDGED AND DECREED** that this Supplemental Order, along with all prior Orders of the Commissioners Court, shall be considered as a whole, and this Order shall constitute the FINAL ORDER of the Johnson County Commissioners Court regarding redistricting of all Johnson County political boundaries. To the extent necessary this Order may be supplemented by such attachments and additional data as may be required without the necessity of further action by the Commissioners Court. Legal Counsel for the County, the firm of Allison, Bass & Magee, LLP, is hereby authorized to make such necessary additions to the supporting documentation, descriptions, maps and data charts necessary to comply with the requirements of state or federal law.

This Supplemental Order shall be composed of the following information, which may be supplemented without further order:

1. Maps of the four statutory Commissioners Court Precincts and:
  - i. Identification of constituent Election Precincts that make up each Commissioners Court Precinct, and
  - ii. Demographic charts reflecting the population and racial/ethnicity for each Commissioners Court Precinct.

See Attachment 2.

2. Map(s) of each Justice of the Peace Precinct, and:
  - i. Identification of constituent election precincts that make up each Justice of the Peace Precinct.

See Attachment 3.

3. Map(s) of Election Precincts, and
  - i. A narrative description of the boundary changes of Election Precincts, and/or a list of census blocks included therein.

See Attachment 4. Additionally, the Court recognizes its previously executed Order date April 26, 2021 concerning changes to Election Precinct boundaries. Attachment 5.

4. If necessary, a narrative explanation of any other condition or circumstance relevant to the redistricting of Johnson County political boundaries.

5. Sections 42.005, 42.0051, 42.006 and 42.007 of the Texas Election Code contain various provisions related to the creation of Election Precincts. The Commissioners Court of Johnson County, Texas hereby recognizes that in some cases, the provisions of Section 42.007 are impracticable, in that portions of the municipal ward lines contain little or no population, and that as stand-alone entities, such areas cannot constitute a separate election precinct of suitable size or shape that contains a permissible number of voters or cannot be combined with other territory on the same side of a political boundary to form an election precinct of a suitable size or shape without causing another election precinct to fail to meet those same requirement.

This Order recognizes that where such conditions exist, the office performing the administration of elections is given discretion to allocate territory in such a manner as to obtain substantial compliance with the applicable statutes.

6. **Notice of Availability: A copy of the entire redistricting plan shall be available for inspection by the public during regular business hours in the office of the County Clerk, or on the county website.**

To the extent that any of the foregoing revised election precincts contain territory inside a city with unincorporated territory outside of the affected city, the Commissioners Court, pursuant to §42.007 (1) and (2), finds that either of the two areas (within and without the incorporated city) cannot constitute a separate election precinct of suitable size or shape that contains the permissible number of voters, or cannot be combined with other territory on the same side of the city boundary to form an election precinct of a suitable size or shape that contains the permissible number of voters without causing another election precinct to fail to meet those requirements. The Commissioners Court delegates sufficient discretion to the office performing the administration of elections to make such boundary adjustment to said election precincts to facilitate the effective administration of elections, and to pose the least inconvenience to the voters of the affected election precincts.

The above and foregoing changes to Election Precincts shall take effect January 1, 2022, and will remain in effect until changes by further Order of this Commissioners Court.

**IT IS THEREFORE ORDERED, ADJUDGED AND DECREED** that the Redistricting Plan depicted in the maps and data attached to this Order are hereby APPROVED and ADOPTED by the Commissioners Court of Johnson County, Texas. This Final Order and Plan adopted by this Order shall be effective for the 2022 general primary election, and for all subsequent elections until changed or modified by later Order.

and to protect the voting rights of all residents of Johnson County, the Commissioners Court has determined to adopt the redistricting plan attached to this Order in map and data form, Exhibit 3. Proposal #1. The Commissioners Court has determined to also adopt the redistricting plan attached to this Order for the Justice of the Peace/Constable precincts. Exhibit 4. Justice of the Peace/Constable precincts follow the boundaries of the commissioners court precincts. At a later date, this Court will receive a more complete description of this plan, including a map depiction of all new political boundaries, polling places and election precinct boundaries. This supplemental order will be taken up and considered by the Court after public notice as required by law.

**IT IS THEREFORE ORDERED ADJUDGED AND DECREED** that the Redistricting Plan depicted in the maps and data attached to this Order are hereby **APPROVED** and **ADOPTED** by the Commissioners Court of Johnson County, Texas. The Redistricting Plan, Proposal #1 and the Redistricting Plan for the Justice of the Peace/Constable precincts adopted by this Order shall be effective immediately for use in the 2022 Primary and for all subsequent elections until changed or modified by later Order of this Court.

## TABLE OF CONTENTS

### TAB A: Initial Assessment

The Initial Assessment is a narrative analysis of the data contained in the PL94-171 files provided by the Census Bureau, together with an explanation of the impact such data may have upon the County in light of state and federal law.

### TAB B: Statistical Definitions and Determination of Total Maximum Deviation

Definitions of the various ratios, formula and procedures utilized in the analysis of county population. These ratios, formula and procedures have been largely developed in case law in the field of redistricting, together with generally recognized methods of sociological study.

NOTE: Prison inmate populations are included in the census data. However, inmates detained under felony convictions are not eligible to vote under Texas law. As such, populations of inmates held within the state prison system, either in state owned and operated facilities, or under contract in county facilities, are typically not counted in the determination of Total Maximum Deviation, or for other "one-person-one-vote" determinations. For purposes of the Initial Assessment, raw data has been acquired from the County and/or the Department of Criminal Justice regarding prison populations, and from the U.S. Immigration and Customs Enforcement (ICE) for persons held pending immigration cases. In subsequent census data releases, group housing data may reveal more specific information, but at this time, we are deducting prison populations from county population totals in order to arrive at a true "one-person-one-vote" analysis, and to avoid potential imbalances in population that might result of inclusion of prison population in precinct totals. County jails holding persons convicted of both felony and misdemeanor offenses, juvenile facilities, or facilities holding individuals pending resolution of pending criminal or immigration charges are included within the population counts for the county, as reflected in the census data.

### DEMOGRAPHIC ANALYSIS

The working file is a demographic analysis of each major County elective office elected from geographic precincts. These files analyze the population demographics of each precinct based elective office, i.e. the offices of County Commissioner, and Justice of the Peace/Constable precincts. Prior to the 1990 census, previously existing election precinct boundaries were often described by non-physical boundaries. Since the use of computerized census maps was first implemented in 1990, based upon topological maps which contain not only physical boundaries, such as roads, streets, streams and water bodies, but also such "non-physical boundaries" as easements, municipal boundaries or other surveyed lines, but not visible on the ground, it was necessary to merely "approximate" those boundaries that were not defined by a physical boundary such as a road, watercourse, or other physical boundary. These approximations were described as Voter Tabulation Districts, or VTDs. It should be

Map 2: Hispanic population

Map 3: Black population

Map 4: Other Non-Anglo Population  
(Asian, American Indian, Pacific Islander, Other or  
Multi-racial categories in excess of 3% aggregate.  
Few Texas counties will have this level of "other"  
Non-Anglo population. If your county does not have more than 3%  
of "other non-Anglo population, there will be no Map 4)

Map 5: Justice/Constable Precincts

Map 5 depicts the Justice of the Peace/Constable Precincts, and the respective election precincts of each such Justice/Constable precinct. Reference should be made to Appendix B for demographic analysis of Justice/Constable precincts. It should be noted that the offices of Justice of the Peace and Constable are not considered as representative offices, and are therefore not legally required to comply with either "One-Person-One-Vote" balance or "representative" analysis under Section 2 of the Voting Rights Act. (42 U.S.C. 1973c) Counties are not required, therefore, to make any changes to existing justice or constable precincts by federal law. However, Article 5, Section 18 of the Texas Constitution sets population requirements for the number of justice precincts required. Each County should carefully examine the number of justice precincts required by law to determine if a reduction or expansion of existing justice/constable precincts is feasible. If changes are made to Justice/Constable precincts, either directly or as a result of modification of the election precincts that make up the Justice/Constable precinct, a voting rights analysis under the Voting Rights Act is required.

**INITIAL SUMMARY FINDINGS REGARDING NUMERICAL BALANCE:**

Please review the information contained under Tab B carefully. Please pay particular attention to the following:

1. Please consider the Total Maximum Deviation in terms of population between the Actual Population of each Commissioners Court Precinct and the Ideal Population. Remember that the ideal population of each precinct is exactly one-quarter of the total county population.
2. Next, consider the Relative Deviation, expressed as a percentage, of the Actual Population of each precinct as compared to the Ideal Population of each precinct.
3. Redistricting will be necessary to comply with 'One-Person-One-Vote' standards if the Total Maximum Deviation between the largest precinct and the smallest precinct (in terms of population) exceeds 10%.
4. Therefore, carefully examine the Total Maximum Deviation calculation. If that number is more than 10%, Johnson County is legally obligated to make changes in its political boundaries to re-balance the population to more equal terms.
5. If the Total Maximum Deviation exceeds approximately 7%, you may want to consider redistricting in order to re-balance your boundaries, although you are not legally required to do so at this time.
6. If the eventual resulting Total Maximum Deviation is below 5%, you are generally safe from legal challenge on a "one-person-one-vote" basis for the next few years.

Fragmenting minority population concentrations must be avoided. Any modification of political boundaries to accomplish compliance with the requirements of the Voting Rights Act must be carefully considered.

### ASSESSMENT OF JUSTICE OF PEACE AND CONSTABLE PRECINCTS

Please see Map 5 for a description of existing Justice of the Peace and Constable Precincts in Johnson County.

Article 5, Section 18 of the Texas Constitutional provides that each county of the State having a population of 50,000 or more shall be divided into not less than four and not more than eight precincts. Counties having a population of less than 18,000 shall be composed of a single justice/constable precinct, unless the Commissioners Court determines that not more than four such justice/constable precincts are needed. Counties having a population of less than 150,000, but which contain a city having a population of 18,000 or more inhabitants, shall provide for not less than two justices of the peace to service the city(s) having 18,000 or more inhabitants.

In each precinct so created, there shall be elected a Justice of the Peace and a Constable, each of whom shall hold office for four years.

Within the context of these Constitutional provisions, it is recommended that Johnson County reconsider the actual need for justice/constable precincts, and consider whether that need suggests change in the present configuration of justice/constable precincts. Article 292.001 Local Government Code and Article 27.051, Government Code address the location of Justice of the Peace courts. In counties having a population of less than 50,000, the County Commissioners Court may locate the justice courts either in the precinct served that justice court, or may centralize the courts in the County courthouse. In counties having a population greater than 50,000, the justice courts must be physically located in the precinct they serve.

Although state law does not require the county election precincts to conform to independent school district election precincts, if Johnson County serves as the election's administrator for other jurisdiction's elections, it only makes prudent sense to consult with each political entity to make sure your county election precincts are compatible with city or school single-member districts.

### GENERAL HOUSEKEEPING

Some attention should be given to "straightening" political boundaries into more uniform shape. In some cases, certain election precincts may be altered to use a more commonly understood or recognized physical boundary in lieu of a poorly identified or recognized boundary. Public Law 94-171, which directed the Census Bureau to develop a uniform mapping and demographic profiling approach for use by small personal computers, required that all voter tabulation districts (VTDs) follow census block boundaries. In many cases, county voting districts had been previously drawn in a manner that did not follow a census block boundary. This required the State of Texas, acting in conjunction with the State Data Center and the Texas Legislative Council, to move the actual voting district boundary to coincide with a nearby census block boundary for tabulation purposes only. The resulting VTD was no longer "actual," but an approximation referred to as a "pseudo-voting district."

Every reasonable effort has been made to conform the pseudo voting district to actual VTD boundaries. However, due to the nature of the available data base, and the requirements of Public Law 94-171, there may be occasions in which the pseudo voting districts, or the resulting lines between commissioner's court precincts, are different from those that actually exist. Again, the use of the pseudo voting district was for tabulation purposes only, and any apparent difference between actual and apparent political lines should be considered as minimal. However, since all later census counts were undertaken upon the census blocks, there could be a valid argument that a necessity to alter current election district boundaries to match the census block format exists. Under these circumstances, new political lines will be required to avoid conflict with census block lines that do not match current political area definitions. While matching census blocks to actual political lines would not, in and of itself, generally support a decision to reapportion under the circumstances that exist in Johnson County, there is a justifiable combination of factors that would support a reapportionment decision. These factors would include:

1. Redrawing election precincts to increase voter convenience.
2. Consolidation of election precincts where practicable.
3. Resizing election precincts to achieve greater efficiency.

ORDER FOR REDISTRICTING OF POLITICAL BOUNDARIES

---

On the 25<sup>th</sup> day October, 2021, the Commissioners Court of Johnson County met in regular/called session, having posted notice of said hearing in compliance with Chapter 551 of the Texas Government Code.

The Commissioners Court of Johnson County has previously retained the firm of Allison, Bass & Magee, LLP, of Austin, Texas, to conduct an Initial Assessment of existing political boundaries of Johnson County, following the issuance of census data by the United States Census Bureau. Attached to this Order, and incorporated herein for all purposes by reference, is a copy of the initial assessment conducted by Allison, Bass & Magee, LLP. This assessment is based upon PL94-171 data, as required by federal law, and is further based upon information provided to Allison, Bass & Magee, LLP by the Texas Legislative Council, other official sources of information, and by Johnson County, Texas.

Based upon this information, Johnson County has a total maximum deviation of 29.24%. The term total maximum deviation is determined by dividing the total population of Johnson County by four, the number of Commissioners Court precincts to determine an ideal precinct size. The actual population of each precinct is then determined, based upon the official population data contained within the census count, as defined by Public Law 94-171. The actual population of each precinct is compared to the ideal precinct size and a range of deviation by percentage is determined. Any total maximum deviation in excess of ten percent (10%) is presumptively unconstitutional under established federal law.

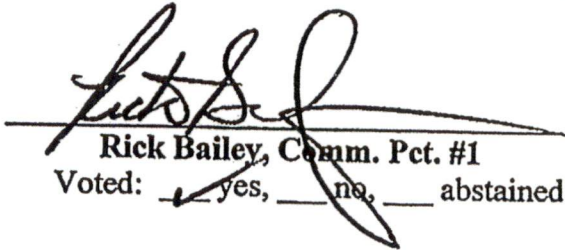

SIGNED THIS 25<sup>TH</sup> DAY OF OCTOBER, 2021.

WHEREAS, said motion was approved by a vote of the Commissioners Court.

**NOW THEREFORE BE IT RESOLVED AND ORDERED:**

The Commissioners Court of Johnson County, Texas does hereby enter Order 2021-19, Order Changing Election Precinct Boundaries, which changes the boundaries to election precincts 2, 3, 4, 7, 8, and 19 and adds six (6) new election precincts numbered 37, 38, 39, 40, 41, and 42 which are all described as required by Section 42.003 of the Texas Election Code on attached Exhibit "A".

These new boundaries are to become formally effective on January 1, 2022 and will be used as the basis for conducting any further elections in Johnson County, Texas.

This Order shall be delivered to the voter registrar not later than the seventh day after the date the Order is adopted.

Beginning the first week following the week in which this Order is adopted, the Commissioners Court shall publish notice of the change in election precincts in the Cleburne Times Review newspaper for three (3) consecutive weeks. The notice is to include a brief, general description of the boundary changes.

The County Clerk shall deliver a copy of the notice to the Secretary of State not later than the 20<sup>th</sup> day after the date this Order is adopted.

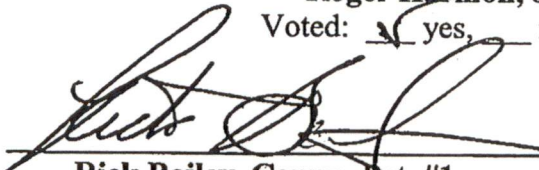

Not later than the 120<sup>th</sup> day after the date this Order is adopted, the County Clerk shall deliver to the Secretary of State a map depicting the affected precincts' boundaries as changed and showing the numbers of the precincts.

WITNESS OUR HAND, THIS 26<sup>th</sup> DAY OF APRIL 2021.
