Who can attend NATIA 2023?

NATIA 2023 is a closed show available only to current NATIA members with membership dues paid through 2023. Membership in NATIA is restricted to full-time employees of law enforcement or government security agencies and the military who are actively engaged in technical surveillance, communications and specialized support of law enforcement or intelligence activities. These individuals must represent Municipal, County, State, Federal or Military agencies involved in the application of electronic surveillance technologies.

Agency credentials are required for entrance into NATIA 2023 functions.

How do I register?

Ensure your membership is active through 2023 by logging into the NATIA member website. Registration will be hosted in a separate platform from your www.natia.org member profile, but will be accessed via the member website so be sure to test your login credentials in advance.

Attendees must pre-register for workshops, but classes offered with the general conference fee are available on a first come, first served basis. Be sure to arrive early to the classes you wish to attend! Waiting lists will be kept for workshops, but don't delay in pre-registering as popular workshops will sell out quickly.
