2-14-2023

To: Sheriff Adam King
Thru: Captain Danny Rogers

From April 10th – 14th Detectives Adam Richards, Garritt Bennett and William Reilly will be attending the Cellebrite course. Although this is in Dallas, it is in downtown Dallas.

Due to travel to and from, being in rush hour traffic I am requesting that they stay in a motel there. This is a very extensive class that requires an 80% or better to pass. If they are on the road 3-4 hours a day give or take, this will take away from their studies not to mention dealing with ordinary home life.

I am only requesting 2 rooms which comes to \$697.93 Sunday into Friday and this will give them to opportunity to study together.

With The Advocacy paying for the course, over \$11k I am hoping we can accommodate them.

Respectfully,

Sgt. Jay Kniffen #1410

The Cellebrite Certified CCO and CCPA bundle is designed for the intermediate and advanced investigator / digital forensic examiner.

This 5-day course bundle combines the curriculum from the Cellebrite Certified Operator (CCO) and the Cellebrite Certified Physical Analyst (CCPA) Courses providing the participant with an intense exposure to Cellebrite UFED, Physical Analyzer Software and all of the core competencies associated with the examination of mobile devices using Cellebrite's Tools and methodology.

During the course, written exams and practical skill assessments will be administered. After successfully passing these exams, students earn the Cellebrite Certified Operator (CCO) and the Cellebrite Certified Physical Analyst (CCPA) certification credentials. Successful class completion results in a certificate of completion and demonstration of mastery of these concepts is one of the prerequisites for students desiring to take the Cellebrite Certified Mobile Examiner (CCME) certification examination.

Students considering the CCME Certification are required to complete the Cellebrite Mobile Forensic Fundamentals (CMFF) course, Cellebrite Certified Operator (CCO) course and the Cellebrite Certified Physical Analyst (CCPA) course.

Cellebrite Certified Operator

Upon successful completion of this class, the student will be able to:

- Install and configure UFED Touch, UFED Touch 2 or UFED 4PC and Physical Analyzer software.
- Exhibit how to open extractions using Physical Analyzer.
- Summarize how to conduct basic searches using Cellebrite Physical Analyzer.
- Outline how to create reports using Cellebrite Physical Analyzer.
- Demonstrate proficiency of the above learning objectives by passing a knowledge test and practical skills assessment with a score of 80% or better.
- Explain the best practices for the on-scene identification, collection, packaging, transporting, examination and storage of digital evidence data and devices.
- Display best practice when conducting cell phone extractions.
- Identify functions used within UFED Touch, UFED Touch 2 or UFED 4PC to perform supported data extractions.

Cellebrite Certified Physical Analyst

Upon successful completion of this class, the student will be able to:

- Conduct advanced mobile device forensic analysis using the UFED Physical Analyzer software.

- Recall techniques used for authentication and validation of data parsed and collected as evidence.
- Identify functions within Physical Analyzer software which allow examination of various types of data.
- Recognize Physical Analyzer's capabilities to generate custom reports in an organized manner.
- Demonstrate proficiency of the above learning objectives by passing a knowledge test and practical skills assessment with a score of 80% or better.
