# ExpressVote®

## Universal Voting System

### Avoids Overvoting

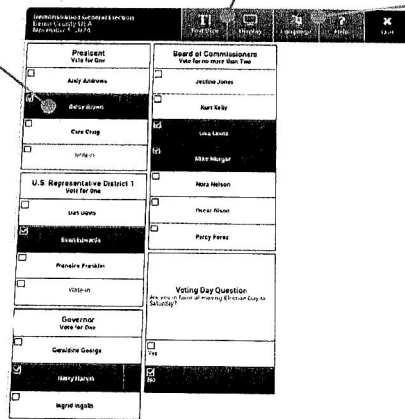

The intuitive interface also alerts voters of ballot exceptions, like undervotes.

### Easier-to-Read Ballots

Visual aids include high contrast and zoom functionality.

### Multilingual

Supports any language in audio and 12+ in text.

Insert Card

Touch Selections

Verify Selections

### Simple Activation

The voter inserts a card to activate the voting session. After voting is complete, the vote summary card is dispensed for voter review.

Page 1 of 1

Review Selections

### ADA-Friendly

Audio-tactile keypad enables voters to control audio and navigate the ballot. The front access panel (above) features a headphone jack and a port for a sip-and-puff device or two-position rocker switch.

## An Accessible System with a Voter-Verifiable Paper Record

The ExpressVote is a reliable, secure and efficient system for election officials and their staff, poll workers and voters. The paper-based ExpressVote combines touch-screen voting technology with an integrated thermal printer to produce a paper record for tabulation.

# DS950<sup>®</sup>

## High-Speed Scanner and Tabulator

### No Rescanning

If scanning is interrupted, there's no need to rescan all the ballots. Green lights indicate a ballot has been tabulated and red lights indicate it has not been tabulated.

### Less Adjudication

Intelligent Mark Recognition (IMR<sup>®</sup>) and Positive Target Recognition & Alignment Compensation (PTRAC<sup>®</sup>) technologies reduce the number of ballots requiring time-consuming manual adjudication.

### Easy to Use

Touch-screen interface walks the user through the tabulation process step by step. Monitor position is adjustable for different heights and convenient storage.

### Customizable, Full-Speed Sorting

No scanning interruptions for damaged ballots or ballots with exceptions. Sorts ballots into:

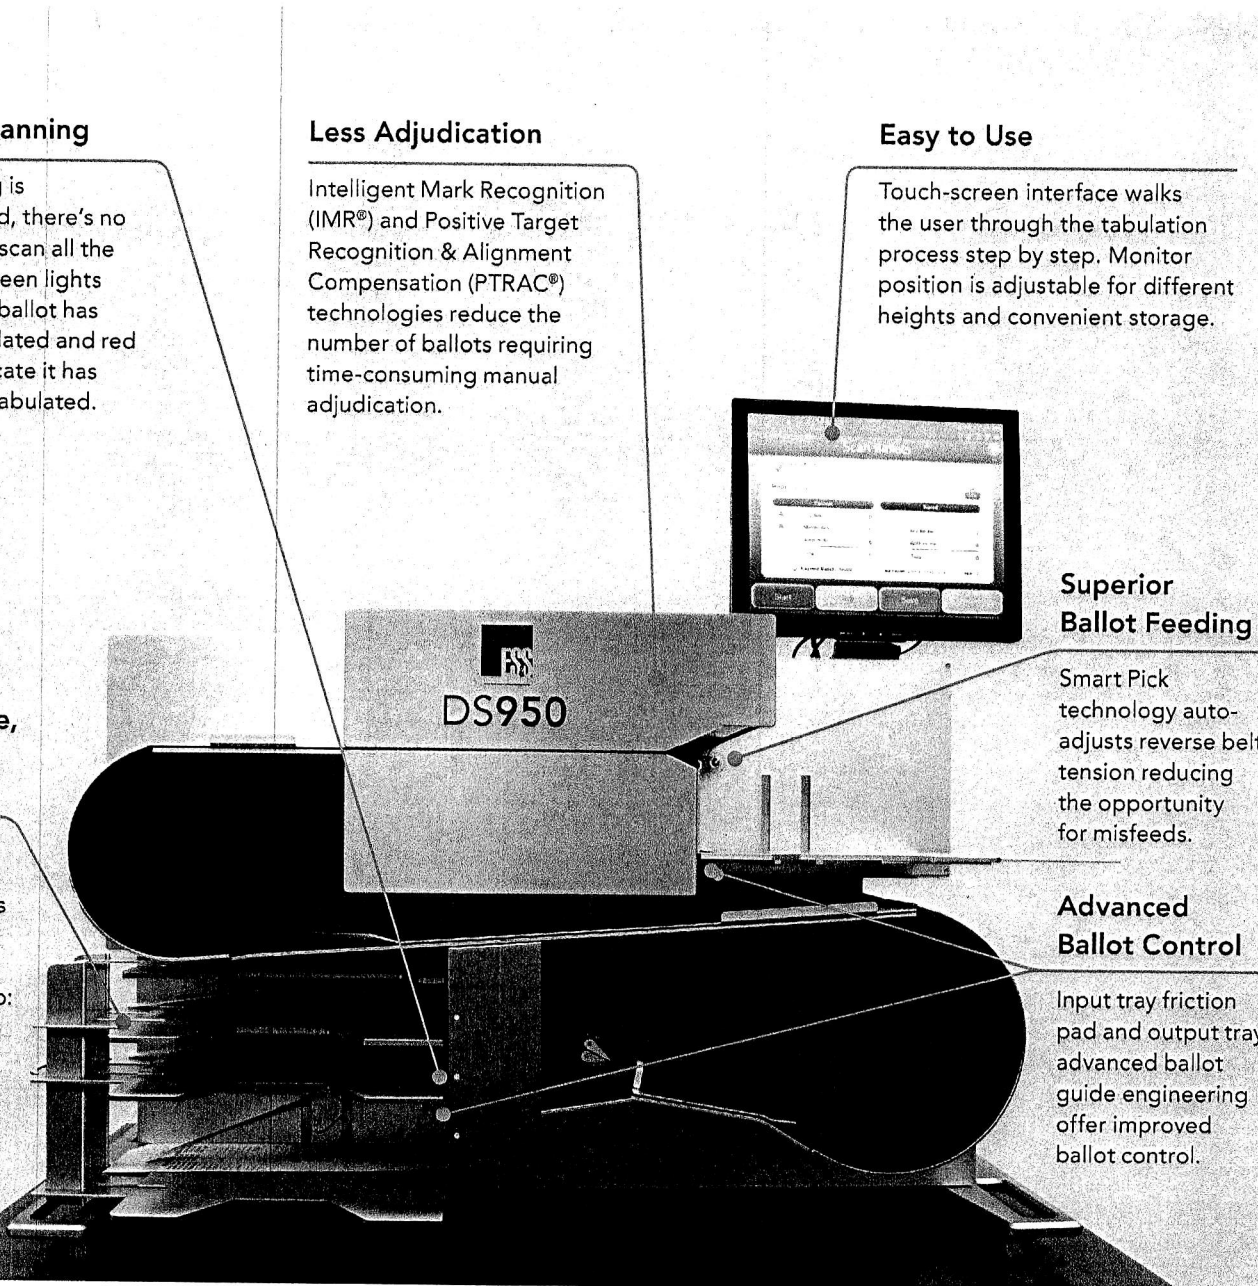

- Requires further review
- Write-ins
- Counted

### Superior Ballot Feeding

Smart Pick technology auto-adjusts reverse belt tension reducing the opportunity for misfeeds.

### Advanced Ballot Control

Input tray friction pad and output tray advanced ballot guide engineering offer improved ballot control.

## Complete Ballot Control From Start to Finish

Let the DS950 handle scanning, separating and sorting ballots all without missing a beat. All ES&S tabulators scan ballots in any orientation – no need to make sure ballots are face up and top edge first before scanning.
