On-site sewage facility performance cannot be guaranteed even though all provisions of the Rules of Johnson County, Texas for Private Sewage Facilities are complied with.
- Inspections and/or acceptance of a private sewage facility by the Public Works Department shall indicate only that the facility meets minimum requirements and does not relieve the owner of the property from complying with County, State and Federal regulations. Private Sewage Facilities, although approved as meeting minimum standards, must be upgraded by the owner at the owner's expense if normal operation of the facility results in objectionable odors, if unsanitary conditions are created, or if the facility when used does not comply with governmental regulations.
- A properly designed and constructed private sewage facility system, installed in suitable soil, can malfunction if the amount of water that is required to dispose of is not controlled. It will be the responsibility of the lot owner to maintain and operate the private sewage facility in a satisfactory manner.

- Johnson County will not be responsible for the maintenance and operations of said drainage ways or for the control of erosion.
- Johnson County will not be responsible for any damage, personal injury or loss of life or property occasioned by flooding or flood conditions.
