Phone (615) 501-0605 · Fax (615) 501-0692
www.wirtgenamerica.com

This form is to be completed and returned, with a completed PDI form, to Wirtgen America, Inc. upon delivery of the machine to your customer as a sold unit. A machine that is rented should be registered as a rental unit. The in-service date for a rental unit is the first day it is rented to a customer. Demo units are to be registered when the hour meter exceeds fifty (50) hours of service for warranty claims to be considered. The enclosed safety manual is to be placed with the machine. In order to maintain our machine records for future mailings and machine updates, we ask that you supply the contact name, phone number and email address of the person responsible for documents pertaining to Safety, Service/Maintenance and Machine Operations.

By signing this form, the responsible persons confirm that they know the location of safety devices and that they have read and understand the operating and safety instructions that were received with the machine. Operating personnel confirm that they have received operation and safety instructions necessary for putting the machine into service. Dealers are responsible for obtaining the proper signatures from their customers.

This form registers the warranty for the machine and ensures that you and your customers are aware of the safety requirements for machine operation. This completed form must be on file with Wirtgen America, Inc. before any warranty claims will be processed.
