Subject: Verizon Frontline Account Manager Contact Info

Importance: High

Good afternoon,

We have identified some issues with connectivity around the county and in an effort to fix this, we would like to get a secondary SIM card in all of the mobile units. The idea is to provide some redundancy if one SIM Carrier fails and also give better coverage in areas that may have poor AT&T FirstNet, but good Verizon Frontline signal.

I have spoken with Thomas Coffman, our Verizon Frontline Account Manager, and let him know I would be sending this email to your agency so that you may reach out to him and start working with him to get a new Verizon account setup.

Purchasing & the Auditors Office would like for each department to have their own Verizon Account setup, so if you have and any questions about how to start this process, please contact Purchasing for more details. To note, our IT Department currently has a Verizon account so the vendor should already be in the county's system.

Please let me know if you have any questions,

Thank you!
