Overnight Travel

- ☒ Travel Approval Form
- ☐ Registration Information or Confirmation
- ☒ Itinerary, Agenda, or Breakdown
- ☒ Hotel Information, Confirmation, or Hotel Reservation Request Form

Course is paid by Johnson County Children's Advocacy Center \$4,607.50. JCSO is responsible for lodging and per diem only.

For Out of State Travel, please also include:

- ☐ Cost Estimation Breakdown for Trip with Airfare, Rental Car, Meals, Hotel, Etc.
- ☐ Narrative as to why the Out of State Travel is necessary

Signature of Elected Official/Department Head:

CELLEBRITE CERTIFIED OPERATOR FOR INSEYETS (CCO INSEYETS)

Mobile Forensics

Course Description

Cellebrite Certified Operator for Inseyets (CCO Inseyets) is a two (2) day intermediate-level certification course that introduces mobile device unlocking, decrypting, and extraction techniques using Inseyets UFED. The course guides participants through pre-extraction considerations that allow examiners to maximize their extraction efforts and protect the potential evidentiary data stored on mobile devices. Participants will gain experience conducting Logical, File System, and Physical extractions using forensically sound methods, and learn techniques related to Before First Unlock (BFU) and After First Unlock (AFU), and apply advanced extraction strategies on locked devices. Finally, participants will create a shareable UFDR report to streamline the investigative process and discuss post-extraction evidence concerns.

Participants will earn the CCO Inseyets certification upon passing a knowledge test and practical skills assessment with a score of 80% or higher.

Level

Intermediate

Length

Two-Day
(14 hours)

Certification
Track

CCME and CCRS

Delivery Mode

In-Person*
Virtual*
Self-Paced

*Blended Learning: Both the In-Person and Virtual courses incorporate a blended learning approach which requires the completion of self-paced pre-work modules. Participants must complete the assigned pre-work prior to attending class. The material in the pre-work will be covered in the final exam.

Cellebrite
TRAINING

Course Learning Objectives

Upon successful completion of the course, the student will be able to:

- Recall the features of UFED technologies for mobile extractions.
- Understand the significance of cellular and mobile data identification.
- Apply knowledge of encryption models to determine their impact on extraction processes.
- Use Inseyets UFED features for accelerated extractions and optimized workflows.
- Select the appropriate extraction methods based on best practices and case circumstances.
- Identify the different states a device can be in and their implications for extraction procedures, and exigent circumstances.
- Analyze the value of data collected from SIM and SD card extractions.
- Assess the value and reliability of advanced extraction methods for locked Android and iOS devices.
- Critically evaluate the findings of digital forensic examinations to create effective reader reports that summarize digital forensic findings effectively.

Notes

No pre-requisites exist to attend the CCO Inseyets class. It is recommended that students complete the Cellebrite Mobile Forensics Fundamentals (CMFF) course prior to enrolling in CCO Inseyets.

This course is a prerequisite for two Capstone Certification tracks:

- Cellebrite Certified Mobile Examiner
- Cellebrite Certified Recovery Specialist

Empowering Justice through Expert Digital Forensics Training

Cellebrite Training is a leading provider of digital forensics education, offering a comprehensive suite of courses designed to empower professionals in mastering the techniques, tools, and methodologies essential for navigating the complexities of digital investigations.

For a complete list of Cellebrite Training's in-person, virtual, or self-paced course offerings, please visit www.cellebrite.com/training or contact your regional Training Account Manager at Training@cellebrite.com or 800-942-3415. Select option #3.

CELLEBRITE CERTIFIED PHYSICAL ANALYST FOR INSEYETS (CCPA INSEYETS)

Mobile Forensics

Course Description

Cellebrite Certified Physical Analyst for Inseyets (CCPA Inseyets) is a three [3] day advanced-level certification course focused on the analysis of forensically acquired digital evidence and advanced search techniques using Inseyets Physical Analyzer (Inseyets PA). Participants will use Inseyets PA to create and manage cases and load evidence to view and analyze Android and iOS extraction data. Using the SQLite database view, participants will explore database contents to find and recover deleted data. The course includes forensic analysis best practices with an overview of verification and validation techniques along with forensic reporting.

Participants will earn the CCPA Inseyets certification upon passing a knowledge test and practical skills assessment with a score of 80% or higher.

Cellebrite
TRAINING

Course Learning Objectives

Upon successful completion of the course, the student will be able to:

- Demonstrate proficiency in the digital forensic process by effectively conducting digital forensic examinations using Inseyets Physical Analyzer.
- Prepare comprehensive digital forensic reports.
- Differentiate between verification and validation techniques and apply them appropriately during the digital forensic process.
- Install and configure Inseyets Physical Analyzer, explore data extractions from mobile devices, and utilize its advanced settings.
- Explore and analyze the Android and Apple operating system and file system structures, as well as their value and complexities to investigators.
- Explore advanced forensic examination tools and topics such as SQLite databases, flash memory characteristics, data carving techniques, and byte-level data searches.

Notes

No pre-requisites exist to attend the CCPA Inseyets class. It is recommended that students complete the Cellebrite Mobile Forensic Fundamentals (CMFF) and Cellebrite Certified Operator for Inseyets (CCO) course prior to enrolling in this course.

This course is a prerequisite for one Capstone Certification track:

- Cellebrite Certified Mobile Examiner

Empowering Justice through Expert Digital Forensics Training
