EQ07119 • ROSCO CSV

MACHINE DESCRIPTION

2026 Rosco CSV Self-Propelled Chip Spreader

The Rosco CSV (Conveyor Spread Vehicle) is a self-propelled aggregate chip spreader used as the second machine in a chip-seal train, following an asphalt distributor. Aggregate is loaded into a receiving hopper at the front; an enclosed conveyor system carries it to a metered spread head at the rear, where adjustable gates lay an even chip layer at the programmed application rate. The operator station sits above the spread head with full visibility of the freshly-laid binder and aggregate fan.

Unit Identification

Make / Model: Rosco CSV (Conveyor Spread Vehicle)
Stock #: EQ07119
Serial #: TBD
Model Year: 2026
Source PO: Purchase Order #PO-016661
Key Specifications

Class: Self-propelled aggregate chip spreader
Material Flow: Front-receiving hopper ' enclosed conveyor ' metered rear spread head
Spread Width: Adjustable, paired with asphalt distributor on chip-seal projects
Operator Station: Elevated over the spread head for direct sight of the seal pattern
Applications: Chip seal, surface treatment, shoulder-treatment work
Standard Equipment

Self-propelled hydrostatic drive
Front receiving hopper with truck-discharge interface
Enclosed conveyor system from hopper to spread head
Metered rear spread head with adjustable gates
Elevated cab / operator station with spread-rate controls

TERMS & CONDITIONS

Quote #Q-2607-0069 · 07/07/2026

Closner Equipment Co., Inc. Terms & Conditions

In addition to this contract, the BUYER agrees to execute any special form required by the SELLER, such as a lease form, chattel mortgage, etc., where the particular state in which the buyer resides, or the equipment is to be shipped requires such special form in order that title shall be retained by the SELLER as is contemplated under this contract. When notes are given as evidence of indebtedness, either the Seller or the Buyer may endorse hereon in the space above, the date which said note or notes bear. The Seller reserves the right to suspend shipment under this contract in the event of doubt as to the Buyer's financial responsibility.

1. Shipment delays. The time of shipment is given on the basis of no delays occurring from strikes, differences with workmen, fires, accidents to machinery, property or plant, failure to receive material, or any causes beyond the seller's control, whether similar to those specified or not, and the Seller is not to be held liable for any damage whatsoever, growing out of any delays occasioned by any or all of the above causes. Damages for any delay for which the Seller is responsible, shall not exceed the reasonable rental value of the equipment above described, by itself, for its ordinary uses during the period of such delay, and shall not include any special damages on account of any special purpose for which the equipment is required. Acceptance of the equipment shall constitute a waiver of all claims for damages by reason of any delays.

2. Title and payment. All payments shall be made to the Seller. The title and ownership of the property furnished under this contract shall remain in the Seller until the entire purchase price of the same shall have been paid in full. Any notes which may be executed and delivered by the Buyer to the Seller shall be regarded as evidence of indebtedness only, and not as payments, whether postponing maturity of the original obligation or not. The property herein described, until fully paid for, shall retain its character as personal or chattel property under all circumstances wherever placed, and whether attached to real estate or not. Any parts, equipment, repairs, or replacements of any kind placed upon or made to said property by the Buyer, or others, should be deemed to be a part of said and become the property of the Seller. Upon failure of the Buyer to make any of the payments as stipulated herein, all unpaid installments shall immediately become due and payable, and the Seller may repossess itself of said property wherever the same may be found, and shall not be liable, in any action for such reclamation nor for the payment of any money or moneys that have been paid in part payment for said property, but the sum so paid shall be deemed to be compensation only for the use, wear and tear of said property.

3. Transport and insurance. The property herein described shall not move from its original destination without the written consent of the Seller, and the Buyer shall keep the interest of the Seller in said property insured against loss or damage, and agrees to provide and maintain in Seller's name, as its interests may appear, adequate insurance for such machinery against loss or damage by fire, in an amount fully protecting Seller until such machinery is fully paid for, and on written request by the Seller, deposit with it, the policies of insurance covering such property. The Buyer further agrees to reimburse the Seller for any loss which it may sustain by reason of fire, theft, or injury to such machinery or any part thereof.

4. Erection risk. The Buyer shall assume all risks connected with the work of erecting the property and shall be liable for all damage or injury to the property or to persons employed on, or in connection with, the work, except to the Seller's engineer, and shall protect the Seller against all claims arising from any such injury or damage. The Buyer shall assume all risks of the loss or destruction of the property, in any manner whatsoever; from the time it is placed on the car for shipment until it is fully paid for in cash. When a

representative is furnished to superintend erection of the equipment the Buyer shall, when erection is complete, sign the letter of acceptance presented by such representative.

5. Order acceptance. The Order shall not be binding upon the Seller until accepted by it and approved as to credit, shipment, etc., by an executive officer of the Seller, and when so approved and accepted, shall constitute a binding agreement upon the parties hereto, and all rights of the parties hereto shall be governed by the laws existing at the time the same is made, in the State in which the Seller is located.

6. Entire agreement. This order when accepted by the Seller as herein provided shall constitute the entire agreement: and the contract so expressed shall not be subject to any circumstances or agreement, verbal or otherwise, excepting only such as are made after the contract mutually accepted and approved in writing by an executive officer of the Seller.

Cory,

Appreciate you giving me a call this morning. Attached is the proposal for the Chipspreader, along with the brochure. This unit is being finished at the factory and will be shipped in the middle of August. This is the only unit we have the qualifies for the cooperative agreements we have. Let me know if you have any questions!

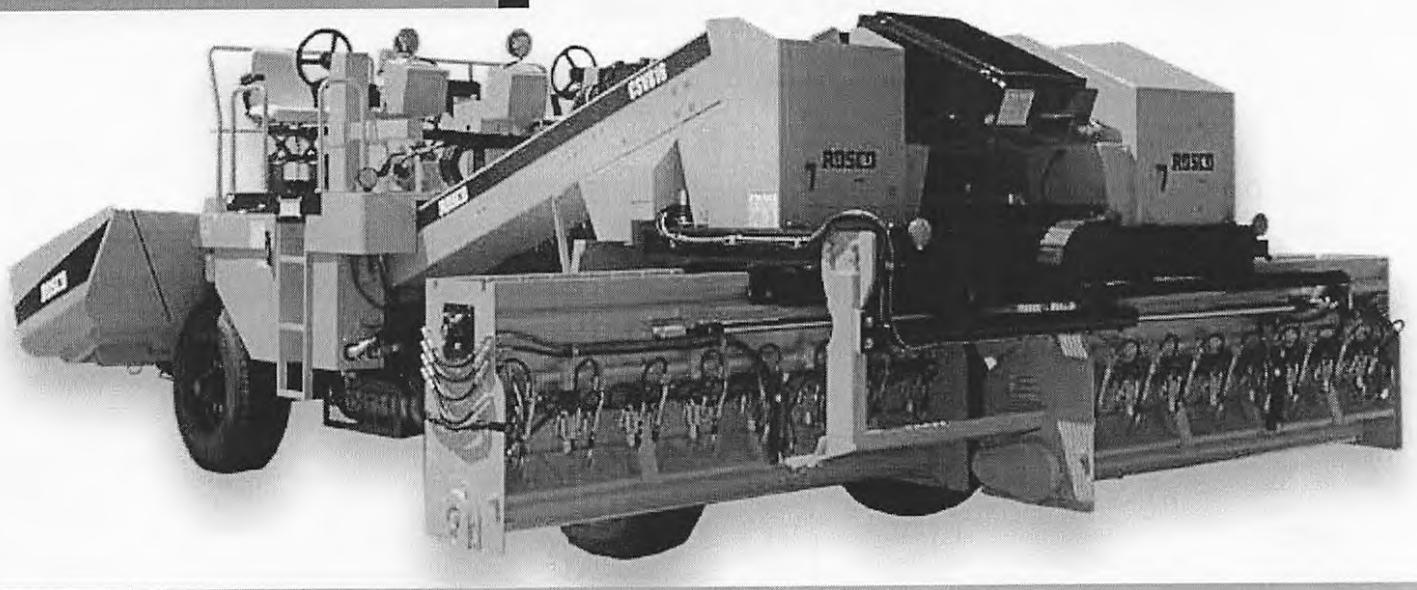

Thank you,

CSV Variable Width Chip Spreader

Rosco
A LeeBoy Company

Serving as the most-advanced chip spreader in our product line, the CSV continues our company's commitment to the preservation industry. The variable width spread hopper and smaller overall footprint provide flexibility that enables chipping within confined areas such as urban routes. Special consideration has been given to the operator's comfort, safety and visibility making this equipment extremely enjoyable to operate. Given the raw power of this unit, the quality of the finished product remains the same even in areas with rough, steep terrain.

Performance Features:

- Variable Width Spread Hopper, 1' to 16' (.304 - 4.8 m)
- No Permit Load, 8' 6" (2.59 m) Maximum Transport Width
- 275 hp (205 kw) Cummins Tier 4 Final Diesel Engine
- Hydrostatic Front Wheel Drive Propel System
- Reversible Cooling Fan for Cooling System Maintenance
- Application Rate Control, Even While Chipping
- 12" (.304 m) Abrasion Resistant Augers
- 3.5 Cubic Yards (2.6 Cubic Meter) Capacity Material Hopp
- Left Side Full Controls, Right Side Remote Control Station
- Features That Allow For Excellent Clean Out Ability
- Low Maintenance Performance

CSV Chip Spreader Specifications

Rosco
A LeeBoy Company

Dimensions	- Length: 25' 10" (7.874 m) - Width: 8' 6" (2.59 m) - Height: 8' 8" (2.64 m), beacon retracted - Wheelbase: 12' 10.5" (3.92 m) - Turning radius: 26' (7.92 m) outside turn radius 22' 3" (6.78 m) inside turn radius - Weight: 23,720 lbs. (10,759 kg), unloaded
Engine	Cummins turbocharged diesel, Tier 4 Final – 275 hp (205 kw)
Capacities	- Fuel: 65 gallons (246 l) - Hydraulic reservoir: 75 gallons (283 l)
Rear Hopper	- Capacity: 3.5 cubic yards (2.67 cubic m) - Receiving width: 10' (3.04 m) to 6' 6" (1.98 m) - Two independent manual flow control gates
Spread Hopper	- Capacity: 1 cubic yard (.764 cubic m) per side - 1' to 16' (.304 to 4.8 m) hopper - Individual gate controls - 12" (.304 m) augers - Spread roll diameter of 6.625" (168 mm), .25" (6.3 mm) thick wall - Spread roll maximum speed, 150 rpms
Hydrostatic Pump Drive	- Single electric controlled pump - Two or four wheel drive system - Hydraulic pump has pressure compensating pump for auxiliary systems
Auxiliary Pump System	- Capacity to operate the hydraulic gate cylinder, hopper extensions, augers, conveyors and spread roll on aggregate hopper - 2,500 psi conveyor
Front Axle	- 52,900 lbs (23,995 kg) rated, oscillating type - Wet disk brakes, 5,400 lbs (2,449 kg) application - Automotive type, drive shaft axle connection between axle and hydraulic drive motor
Rear Axle	- Two-wheel drive system - Minimum 22,500 lbs (10,205 kg) rated capacity - 16.5" (.419 m) diameter, 7" (177.8 mm) wide brakes - Minimum 7" (177.8 mm) ground clearance
Tires	- Track width front: 6' 3" (1.9 m) - Track width rear: 6' 9" (2.05 m) - Tires standard size: 385/65R 22.5
Conveyor Belts	- Two independently operated, aggregate feed conveyors - Adjustable tail pulleys with pillow block style bearings, grease zerks for each bearing - Auto and manual system controlled by touch pad - Belt width: 20" (.508 m) - Speed: 0 to 500' (152.4 m) per minute
Truck Hitch	- Electronically controlled from driver's station - Electronic over hydraulic released locking mechanism - Remote camera for truck hitch
Operator's Area	- Full console left side, remote operator control on right side - Foot brake and parking brake control - Cushioned and adjustable seat
Control Functions	- Manual: forward/reverse speed with joystick - Speed ranges: 0 to 20 mph (0 to 32.1 kph), high 0 to 10 mph (0 to 16 kph), low/reverse
Application Rate Control	- Computer monitors speed of spreader, varies gate opening to maintain set rate - Plus+1 CAN Bus monitors speed of spreader - Programmable application rate in lbs per sq yard - Rock size, type, chipping width, feet per minute, accumulative totals - Memory settings and service screens
Optional Equipment	- All-wheel drive system - Dual operator consoles with slides - Spread hopper vibrators - Umbrella, quantity 2
