RE: Asphalt Road Material

Dear Ms Cook,

Coffeyville Resources, in Wynnewood, Oklahoma is our supplier for MC-30, has notified Southern Asphalt & Petroleum Co., Inc. that their MC 30 material is off spec for Texas, (which means that their MC-30, will not meet TXDOT requirements). In order to supply Johnson County with MC-30, Southern Asphalt will have to bring the MC 30, from Valero in Sunray, Texas. This will increase the price of the MC-30, by \$ 0.23 per gallon, making the delivered price for MC-30 \$ 3.66 per gallon.

Please feel free to confirm the availability of MC-30, in Wynnewood, with Nancy Kunkle, Customer Service Representative for Coffeyville Resources Refining & Marketing at 405-945-0029.

We at Southern Asphalt value the positive relationship we have had with Johnson County over the years. We promise to give you our best efforts at delivering quality asphalt products in a timely manner. We thank you for your business.

Sincerely,

Matt Rooker  
President
