

**REQUIREMENTS
CONTRACT**

JURY ADMINISTRATION SYSTEM

THIS AGREEMENT, made and entered into this 23rd day of June 2014 ("Effective Date"), is between Johnson County, 204 S. Buffalo Ave., Cleburne, Texas 76033 hereinafter called ("County") and Judicial Systems Inc., 211 Robert E Lee Dr. Tyler, Texas 75703 hereinafter called ("Contractor").

County desires that Contractor provide the Jury2014Plus Jury Administration System as modified for the County as provided for in this Agreement and Contractor is willing to undertake and provide the system for the County.

1. Consideration and Binding Effect.

The parties acknowledge that the promises by the County and Contractor set forth below constitute full and adequate mutual consideration and that this Agreement is enforceable by and binding against each of the parties as of the Effective Date.

2. Contractor's Duties and Responsibilities.

Contractor covenants to provide the computer hardware, computer software, the installation and training, the Design Questionnaire and Summons Forms, the Telephone Technical Support and Software Updates, and create a Jury Wheel Database as described in Exhibit "A", the Digital Imaging as described in Exhibit "B", the Juror Information Management System as described in Exhibit "C", the Interactive Web Response System as described in Exhibit "D", and the Interactive Mobile Messaging System as described in Exhibit "E". Contractor shall furnish all material and perform all work in a professional manner.

Contractor represents: that it is or will become aware of conditions and limitations which will or might affect its performance of the Services, including all applicable laws, rules, and regulations; has skill, training and expertise as well as the types and quantities of equipment, employees, and other facilities necessary to commence, conduct, and complete the Services in a timely manner. The failure by Contractor to take any action necessary to comply or to have complied with these representations shall not relieve Contractor of any of Contractor's duties, liabilities or obligations contained in this Agreement.

3. Description of Product and Invoicing.

Contractor shall furnish, as expressly provided in this Agreement, at Contractor's expense, all

labor, supervision, materials, equipment and incidentals required to provide the product according to the specifications and in consideration of the charges set forth in Exhibits A, B, C, D and E hereto.

A. In consideration of the payment by County to Contractor of all fees and charges set out herein, Contractor hereby grants to the County a non-exclusive, nontransferable, license to use the Judicial System Inc. Software on the computer system located at the County's premises as set out on page one of this Agreement. Except as otherwise provided in this Agreement, the County will not, by itself or through any affiliate, agent or third party, directly or indirectly:

- a. reverse engineer, decompile, disassemble, alter or tamper with the Judicial Systems Inc. Software, in whole or in part, or otherwise obtain or attempt to obtain the source code for the Judicial Systems Inc. Software;
- b. sell, lease, loan, exhibit, donate or otherwise transfer any Judicial Systems Inc. deliverables or allow access to the Judicial Systems Inc. Software by any party;
- c. permit any party to benefit from the use or functionality of the Judicial Systems Inc. Software via a timesharing, service bureau or other arrangement;
- d. transfer any of the rights granted to County under this agreement or license granted hereunder including without limitation, by way of sublicense;
- e. remove or alter any of the trademarks, trade names, logos, patent or copyright notices or other confidential or proprietary notices or legends on or encoded in the Judicial Systems Inc. Software or otherwise on the Judicial Systems Inc. Software.

5. Conduct of Operations.

Contractor shall provide said Jury Administration System in full compliance with all federal, state and local laws, rules and regulations that are or may become applicable to the provision of the System.

6. Indemnification.

A. Contractor shall be responsible for and shall indemnify, exonerate and save harmless County, its officers, agents and employees, from and against any and all liability of penalty which might be imposed by reason of actual or asserted violation of laws, regulations, ordinances, or other rules of any government or quasi-governmental body, including actual or asserted failure to pay taxes as herein provided. This section is however subject to the provisions and limitations of Chapter 101 of the Texas Civil practice and Remedies Code (Texas Tort Claims Act) and to Texas statutory and constitutional provisions restricting indemnification by political subdivisions of the State of Texas.

- B. The breach of any representation, condition or agreement of Contractor pursuant to this Agreement.

If County is threatened in writing with any action or proceeding which may give rise to the right of indemnification hereunder, County will give written notice thereof to Contractor. Contractor, as the indemnifying party, shall have the right to participate in defense of such action or proceeding, and, to the extent requested by County, Contractor shall assume the defense thereof with counsel mutually satisfactory to both parties. If Contractor assumes the defense of any such action or proceeding, Contractor shall take all steps necessary to defend the same but shall not settle any such proceeding without the written consent of County unless such settlement does not adversely affect rights or assets of County.

7. **Support.**

County agrees to promptly furnish to Contractor all data requested by Contractor that are reasonably related to performance of Contractor's Services hereunder.

8. **Status as Independent Contractor.**

Contractor is an independent Contractor and not an employee, servant, agent or representative of County. As an independent contractor, Contractor shall not participate in the employee benefits available to County's employees.

Neither compliance or non-compliance by Contractor and Contractor's employees, agents, and representatives with the terms and provisions of this Agreement shall affect Contractor's status as an independent contractor or relieve Contractor of any of Contractor's duties, liabilities, or obligations under this Agreement.

9. **Termination and Modification.**

A. **Termination.**

1. County shall have the right, at any time to terminate the Services, with thirty (30) days written notice.

2. Upon termination of this Agreement, other than for cause, County shall pay Contractor for that part of the product supplied satisfactorily to the date of such termination.

B. Modification.

This Agreement may not be modified, amended, supplemented, or extended except by written instructions executed by both of the parties.

10. Assignment and Subcontracting.

A. Assignment. Contractor shall not assign its rights or delegate its duties hereunder without prior written consent of County. County may condition such consent.

B. Subcontracting. Contractor shall not subcontract any part of the Services without the prior written approval of County as to the subcontractor. The County may condition such consent.

11. Waiver. Failure by County or Contractor at any time, to enforce or to require strict observance of any of the terms, conditions or provisions of this Agreement shall not constitute a waiver of, nor limit or impair, such terms, conditions or provisions. In addition, any such failure shall not affect the right of either party to avail itself at any time of such remedies as it may have for any default hereunder by the other party hereto.

12. Governing Law, Venue and Costs.

This Contract shall be governed, construed and interpreted by, through and under the laws of the State of Texas. The parties hereby agree that venue for any and all disputes related to this Contract shall be in the District Court of the State of Texas, in and for the County of Johnson.

The parties further agree that, should it become necessary for either party hereto to take legal action to enforce any rights and/or obligations outlined herein, that the prevailing party shall be entitled to recover their costs to the extent provided for by law, with each party to bear their own attorneys' fees unless otherwise provided for by law.

13. Entire Agreement.

The terms and provisions of this Agreement constitute the entire agreement between the parties and supersede all previous communications, representations, undertakings or agreements between the parties hereto with respect to the subject matter hereof whether oral or written.

14. Payment

The Contractor is to provide the entire Jury Administration System as outlined in Exhibits A, B, C, D and E attached hereto. The breakdown is as follows:

14. Payment Continued

County shall pay and reimburse Contractor for provision of the System in accordance with the terms and at the rates of compensation and reimbursement set forth in Exhibits A, B, C, D and E. Payment in accordance with Exhibits A, B, C, D and E shall constitute full and sole payment and compensation to Contractor for providing the Jury Administration System.

Contractor agrees to the following three year payout:

1st Year Payment Due:	2nd Year Payment Due:	3rd Year Payment Due:**
October 1, 2014	October 1, 2015	October 1, 2016
\$37,000.00	\$37,000.00	\$32,659.00

All invoicing is to be sent to Johnson County District Clerk, 204 S. Buffalo Ave., Cleburne, Texas 76033. Payment of any such invoice shall not preclude County's right to question the accuracy thereof. Payment terms to be net 30 days.

System/Module	System Module Pricing	Annual Technical Support*
Jury2014Plus	\$26,585.00	\$3,662.00
i-Juror (IWR)	\$23,290.00	\$1,584.00
JIMS (IVR)	\$18,145.00	\$1,132.00
m-Juror	\$6,500.00	\$520.00
Digital Imaging	\$11,445.00	N/A
Total	\$85,965.00	\$6,898.00

* Annual Tech Support includes unlimited telephone technical support and Free Software upgrades.

** After 3rd Year Payment is Complete, Johnson County will be billed annually for Technical Support. Current Payment Plan includes Annual Technical Support for each year.

Exhibit "A"

Jury2014TM PLUS

THE NEXT GENERATION OF JURY MANAGEMENT SOFTWARE

The **Jury2014Plus** Jury Management System is the most advanced, integrated jury management system available. Because no two courts are alike, **Jury2014Plus**, the most comprehensive Jury Management System on the market today, is

designed to match each court's unique requirements. By working closely with each and every jurisdiction since 1982, we have a very unique and thorough understanding of the many different court processes. **Jury2014Plus** makes extensive use of user-defined tables, which allow courts to customize the application to their own environments and business practices.

Judicial Systems, Inc. is a client focused company that conducts ongoing research and development to keep our customers on the leading-edge of technology. This philosophy insures that we provide solutions that exceed today's and tomorrow's court requirements. In an era where shrinking public resources often translates into reduced service to the public, Judicial Systems, Inc. is able to increase access to the court through the use of additional integrated modules: Document Imaging, i-Juror Interactive Web Response System (IWR) and our telephonic Juror Information Management System (JIMS). Because these modules were designed and developed by Judicial Systems, Inc., each one is 100% integrated with Jury2014Plus. Each module reduces the amount of staff time required to process the vast majority of the information received and disseminated, resulting in the jury operations of the court to function more efficiently.

For more detailed information on **Jury2014Plus**, (**JIMS**) Juror Information Management System or **i-Juror** interactive web response System, please visit our Web site at: www.judicialsystems.com

Jury2014Plus Product Highlights:

- **Integrated Interfaces:**
 - Document Imaging System
 - Interactive Voice Response System: **JIMS - Juror Information Management System**
 - Interactive Web Response System: **i-Juror**
- **Save Time** - This fully automated Jury2014Plus software can process jurors more efficiently allowing your courts to complete the jury selection process faster.
- **Save Money** - Processing jurors more efficiently through the jury process saves you money.

- **Simple to Operate** - Using windows-based software, processing jurors through qualification, summoning check-in, courtroom assignments and payment functions can be accomplished with minimal effort.
- **Superior Technical Support** - Our trained technical support specialists are available to assist your staff with any questions that might occur.
- **Affordability** - Judicial Systems, Inc.'s size-based pricing make Jury2014Plus affordable for all jurisdictions.
- **Context Sensitive Help** - On-line help is available with each data screen and field within the system, allowing quick retrieval of an explanation of system functionality.
- **Ad Hoc Reporting** - In addition to the many standard reports that are provided with Jury2014Plus, a variety of ad hoc reports can be created from querying data element combinations and are displayed in tabular or chart formats.
- **Data Accuracy and Integrity** - Field edits, which are customizable for each court, ensure data is entered and updated correctly within the system.
- **Court Customization** - Jury2014Plus makes extensive use of user-definable parameters allowing courts to customize Jury2014Plus to their own unique operating requirements.
- **Security Profiles** - Individual user security passwords restrict user access at key levels within the system.
- **Integrated Word Processing** - Users can easily create an unlimited number of templates, letters and forms for mail merging to send customized correspondence and court orders to potential jurors.
- **Digital Form Imaging** - Juror qualification questionnaires and summons profiles can be digitally scanned to make processing more efficient. The digital images can be stored, displayed and printed when needed keeping actual paper work to a minimum. The quality and integrity of the captured data is dramatically improved by reducing errors inherent with manual data entry.
- **Interactive Voice Response: (JIMS)** - Handling juror telephone inquiries can be time-consuming and labor intensive. With the Juror Information Management System (JIMS), a significant reduction in the amount of time your staff spends responding to routine juror telephone calls can be realized by allowing prospective jurors to obtain their qualification status and retrieve reporting information over the telephone 24-hours-per-day, 7 days-a-week.
- **Interactive Web Response: i-Juror** - Jurors can visit your Web site to find answers to commonly asked questions, accept service, view instructions for the next day's service, and obtain work certification documentation or request exemptions or deferrals according to your court specific policies. An electronic image of each request is stored for easy and immediate retrieval. Based on the user's request, the system will generate an electronic confirmation of each request, saving your staff time and reducing postage costs.

- **Interactive Mobile Messaging: m-Juror –**

- Potential jurors are able to text m-Juror and complete their qualification questionnaire. This feature allows the potential **“on the go”** juror the ability to complete their qualification questionnaire at any time by using their smartphone.
- Jurors can text m-Juror to find answers to commonly asked questions regarding their jury service. By employing our intelligent text interpretation engine, jurors can receive reporting information by texting inquires in common non formatted syntax such as...“where do I park?”, “when do I need to report?”, “How do I get there?”, etc. A complete history of all communications received from, or sent to, each juror is documented as part of the jurors permanent history within Jury2014Plus. Jurors can request a link to Google Maps allowing for GPS navigation from their current location to their reporting location.

Exhibit "B"

Systems, Inc. provides courts with a seamless data and image capturing solution. Through the use of Intelligent Character Recognition (ICR), Optical Character Recognition (OCR), Optical Mark Recognition (OMR) and barcode reading, juror qualification questionnaires and summons profiles can be digitally scanned to make processing more efficient. The digital images can be stored, displayed and printed keeping actual paper work to a minimum. In addition to taking a digital picture of the front and back of these forms, the data is read from the forms and updated within the system. The quality and integrity of the captured data is dramatically improved by reducing errors inherent with manual data entry procedures.

One of the critical operational problems faced by most courts today is how to provide adequate storage for an ever increasing volume of court documents. There are several issues that make up this problem. First, the courts are mandated by law to store records for long periods of time. This can require a significant amount of physical storage space. Digital scanning of qualification questionnaire and summons profiles provides immediate access to a prospective juror's documents within seconds, without having to sort through thousands of stored paper documents. Images can be collected and copied onto CDs. CDs are easy to use, have a long useful life, are virtually impervious to environmental damage such as heat or dampness and take up very little storage space.

Document Imaging

"Judicial Systems, Inc. is the premier provider of jury management software systems and court technology services to courts and municipalities nationwide since 1982. Placing particular emphasis on developing and integrating information systems with automated capture to increase efficiency has been the driving force to success"

JIMS Juror Information Management System

Handling juror telephone inquiries can be time-consuming and labor intensive. With the Juror Information Management System (JIMS), a significant reduction in the amount of time your staff spends responding to routine juror telephone calls can be realized by allowing prospective jurors to obtain their qualification status and retrieve reporting information over the telephone 24-hours-per-day, 7 days-a-week. Jurors may respond to qualification questionnaires, reschedule their service date as well as being informed of up to the minute reporting instructions. With user defined parameters within JIMS, you take control of just how much latitude each prospective juror is allowed when requesting an excuse or reschedule of their service date. Using prerecorded voice files, the JIMS system can speak information to your potential jurors and prompt them to provide data needed to complete many of the routine telephone inquiries.

JIMS Highlights:

- Fully integrated with **Jury2014Plus**
- Multi-Language support
- Eliminates the need for jury staff recording reporting instructions on voice mail or an automated attendant system
- Utilizes industry standard hardware and is scalable to handle your court's call volume requirements
- Automatically handle every call Professionally & Consistently
- Answer calls on the first ring
- Speak to callers in a clear human tone of voice
- Provides accurate, reliable and up to date information
- Efficient, accurate and detailed information dissemination
- Frees court staff for more productive work
- Improved service & citizen/juror satisfaction
- Ability to pre-qualify via telephone
- Provide detailed reporting instructions on individual juror basis.
- Allows jurors to obtain their juror status. i.e. Excuse granted

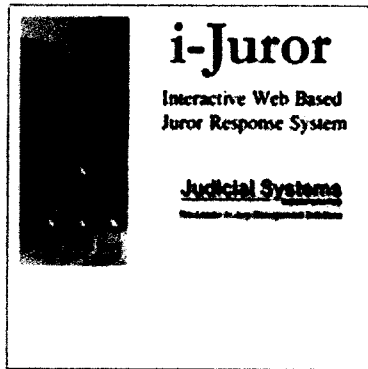

- Provides juror with detailed county policy regarding: Length of Service, Rate of Pay, Dress code, Parking and Security requirements.
 - Number of incoming lines easily expandable as call volume demands increase
 - Automate Repetitive Information Requests
 - Provide Enhanced Information Services
 - Allows immediate access for jurors to jury service information, 24 hours a day.
 - Provides individual reporting instructions for jurors.
 - Prevents court personnel from being interrupted with repetitious inquiries.
 - Using the JIMS module, courts can schedule jurors to appear in court, call in at a specified time of day for reporting instructions, or dismiss from court. This information is made available to the IVR module, where jurors can retrieve their individual reporting information.
 - Qualified jurors may defer themselves to a future date, as specified by the court's own rules.
 - Jurors can verify appearance status, reschedule service dates, obtain courthouse directions, and determine court assignments via telephone.
 - Traffic performance monitoring - call information is collected and reports generated to gauge performance and usage of each telephone port.
 - JIMS gives complete reports and a history of all calls
 - Updates individual juror history with all telephone activity.
- Full logging of callers' details and the selections made during the call.

<u>1 COMPUTER HARDWARE AND TELEPHONE SOFTWARE SYSTEM</u>	COST
Judicial Systems Telephonic Juror Information Management System (JIMS) to interface with Jury2014Plus Jury Administration System. This cost includes PCI voice card equipped with 4 Telephone ports installed on county owned workstation.	\$ 14,155.00
<u>2 INSTALLATION AND TRAINING</u>	
Installation of (JIMS) System and Training of personnel 3 Days @ \$980.00 per day.	\$2,940.00
Travel Expenses not to exceed \$550.00	\$550.00
Cost of Studio Voice Recording	\$500.00
TOTAL	\$18,145.00
<u>JIMS TECHNICAL SUPPORT AND SOFTWARE UPDATES</u>	\$1,132.00

First 90 days after installation is free, annual telephone technical support and free software update fee. (Optional)

Exhibit "D"

i-Juror Interactive Web Response System

An optional component of Jury2014Plus Jury Management System, i-Juror allows citizens to communicate with the court via the Internet. Upon receiving a qualification postcard, questionnaire or summons, jurors can access court information, enter biographical information, request service postponements and deferrals, and more. Jurors can visit your Web site to find answers to commonly asked questions, accept service, view instructions for the next day's service, or request an exemption or deferment according to court specific rules. Based on the user's request, the system will generate an electronic confirmation of the request, saving your staff time and reducing postage costs. By incorporating i-Juror

into your court's Web site, you can provide jurors with essential information about your court and jury processes. E-mail links allow jurors to contact the court electronically, so your employees can respond during times when they are not already busy. With i-Juror, you can provide the superior service your constituents expect, both in person and online.

i-Juror Highlights:

- Fully integrated with **Jury2014Plus**
- Allows immediate access for jurors to jury service information, 24 hours a day.
- Provides individual reporting instructions for each juror including an **interactive map** from the juror's residence to the courthouse including turn by turn directions.
- Provides juror with detailed county policy regarding: Length of Service, Rate of Pay, Dress code, Parking and Security requirements.
- Jurors can complete Qualification Questionnaires and Personal Profile Questionnaires on-line.
- Jurors may defer themselves to a future date, as specified by the court's own rules.
- Updates individual juror history with all i-Juror activity.
- Eliminates the need for jury staff recording reporting instructions on voice mail or an automated attendant system
- Frees court staff for more productive work
- Improved service & citizen/juror satisfaction
- Ability to pre-qualify via internet
- Allows jurors to obtain their juror status. i.e. Excuse granted/denied

- Provides Juror with Payment information. i.e. Amount & Date Paid
- Automate Repetitive Information Requests
- Provide Enhanced Information Services
- Prevents court personnel from being interrupted with repetitious inquiries.
- Jurors can verify appearance status, reschedule service dates, obtain courthouse directions, and determine court assignments via the internet.

m-Juror

Interactive Mobile Messaging

Exhibit "E"

Judicial Systems, Inc. Interactive Mobile Messaging System (m-Juror) allows jurors to register and receive court notifications, submit questions and receive answers regarding their service as a juror. Jurors must register with m-Juror by means of information printed on their summons and are provided personal, one-to-one, communications concerning their service. INTERACTIVE MESSAGING SERVICE is the key and important functionality provided by m-Juror. This system can be used to render information on demand such as parking information, reporting location, date and time, etc. Jurors can request precise information by sending an inquiry in the form of a text message to the system and in reply the information will be delivered back to the juror in form of text message. As an example, to receive the reporting location, a juror could simply text "where do I report", "where do I go", "where?" etc. m-Juror's intelligent text interpretation engine will decode each inquiry and reply with the appropriate response to each question.

- Fully integrated with Jury2014Plus.
- Text Messages can be sent to jurors before their reporting date reminding them of their requirement to report, or not report. For example, all jurors who have registered with m-Juror summoned on Monday can be sent a text message the preceding Friday afternoon or evening reminding them of their requirement to report or not to report.
- Summoned Jurors can be sent a text informing them of the determination of their request for deferment or excuse.
- By employing our intelligent text interpretation engine, jurors can receive reporting information by texting inquiries in common non formatted syntax such as..."where do I park?", "when do I need to report?", "How do I get there?", etc.
- A complete history of all communications received from, or sent to, each juror is documented as part of the jurors permanent history within Jury2014Plus.
- Jurors can request a link to Google Maps allowing for GPS navigation from their current location to their reporting location.

(GPS Directions to reporting location)

"m-Juror's functionality and value is exceptional and just one example of the continual innovation Judicial Systems integrates into all of their products."

-Jon J. Bellows, Trial Court Administrator, Guilford County, NC.

****m-Juror's Newest Enhancement****

Potential jurors are able to text m-Juror and complete their qualification questionnaire. This feature allows the potential "on the go" juror the ability to answer their qualification questionnaire at any time by using their smartphone.

Visit www.mjuror.com for a short 12 minute demonstration video.

The following is an example of communication between a summoned juror and m-Juror integrated with Jury2014Plus. After the juror has registered with m-Juror by providing their Juror Number of 935516 and electronic signature of 12121, m-Juror delivers customized alerts and answers to text message inquiries.

Please reply with your five digit Electronic Signature number located on the front of your summons.

Thank you for registering with the Guilford County Mobile Juror Notification System.

You must report on Monday, March 31, 2014 at 8:30 a.m. to the Jury Assembly Room, Third Floor of the Guilford County Courthouse located at 201 South Eugene Street.

Free parking is available at the lot at the corner of Sycamore Street and Blandwood Ave. OR the Greene Street Parking Deck. If parking in the Green Street Deck, bring parking stub in for validation.
