FROM THE DIRECTOR  
 U.S. CENSUS BUREAU

In July 2017, your government will receive a formal invitation to participate in the 2020 Census Local Update of Census Addresses Operation (LUCA), as mandated by the Census Address List Improvement Act of 1994 (Public Law 103-430). This is the only opportunity offered to tribal, state, and local governments to review the U.S. Census Bureau's residential address list prior to the 2020 Census. The Census Bureau relies on a complete and accurate address list to reach every living quarters and associated population for inclusion in the census. Your LUCA participation can help ensure an accurate count for your jurisdiction.

The primary purpose of the decennial census is to apportion the seats in the U.S. House of Representatives. However, over 1,000 federal programs utilize census data to allocate monies to tribal, state, and local governments. Census data support grant applications for funding community and regional development programs and projects, and can also help your community plan for future needs.

Enclosed with this letter are:
