VARIANCE REQUEST

Johnson County Subdivision Rules and Regulations outline what is required under the adopted Rules and Regulations. To request a variance for a deviation or exception to those Rules and Regulations for a lot or tract (ex: road frontage, etc.) please provide the following information.

Variance fee is \$120 per request. This request will be presented to the Commissioner's Court for their decision.

Name Brian & Angela Wish, Steve Wish Date 25 Feb 2026

Phone Number 817-707-3788

Email Address brian.e.wish@gmail.com

Property Information for Variance Request:

Property 911 address 1832 CR 208

Subdivision name TBD - Wish Addition Block _____ Lot _____

Survey P. P. Barnes Survey Abstract 25 Acreage 8.338

Request For the Court to waive the Credible Evidence of Groundwater/Groundwater Accessibility Certification requirements for 3 lots with 3 private water wells (one per lot)

Reason for request Plan is to construct 2 private homes each with its own well. Use of the third lot is not yet determined but is sufficient size to

sustain a well & septic (3 lots >2 acres ea). Procuring a GAC would raise construction cost by approximately \$50K and delay construction start.

Longstanding wells exist at approx 300 feet within 1 mile and >900 feet within 5 mi radius. Please see attached letter.

Provide the following with this request:

- Copy of plat (if property has been platted)
- Copy of property deed
- Survey or drawing showing existing structures

Johnson County Commissioners Court
2 N. Main Street
Cleburne, TX 76033

Dear Commissioners Court,

We respectfully request the Court to waive the Credible Evidence of Groundwater/Groundwater Accessibility Certification (GAC) requirement for the parcel located at 1832 CR 208.

In November 2025, a parcel of approximately 8.3 acres at 1832 CR 208 was purchased by myself and my wife Angela, as well as my brother Steve Wish. Our intent is to divide the parcel into 3 lots and build two houses, each with its own well. Use of the third lot is yet to be determined and will be retained in common. Each lot is of sufficient size to support a well and septic (3 lots > 2 acres each).

Initial discussions with an engineering firm indicate the GAC testing and certified report would cost approximately \$50k, adding significant cost and delay for construction.

1. There is evidence that adequate groundwater is available at the site as noted by the following wells, including a neighbor with property across the street and a series of houses from a half mile to a mile away on CR 208:

Location	Approx Distance (in feet, to edge of property)	Depth
J CR 208	300	278
10200 CR 109	2400	300
2321 CR 208	3000	300
2357 CR 208	3500	300
2381 CR 208	2900	300
2405 CR 208	4200	300
2509 CR 208	4800	298

2. Review of groundwater data and maps, plus discussions with well drillers also indicates that there is groundwater available from other aquifers/formations at greater depths. Other wells within 4-5 miles indicated potential layers at 800-1000 feet and 1500-1700 feet.

We appreciate your consideration and look forward to moving to Johnson County!

Brian Wish
